ABILITIES

CORE - Leader

A Worthy Skull

Each time this model makes a melee attack that targets a Character unit, you can re-roll the Hit roll and you can re-roll the Wound roll. Each time this model's unit destroys a Character model, you gain 1CP.

Forwards, For Blood!

While this model is leading a unit, you can re-roll Advance rolls made for that unit and each time that unit makes a Blood Surge move, you can re-roll the D6 used to determine how far models in that unit move.

Leader

This model can be attached to the following unit: KHORNE BERZERKERS

WEAPON ABILITIES

Devastating Wounds

Each time an attack made with a [DEVASTATING WOUNDS] weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by [DEVASTATING WOUNDS] weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

Example: An attack made with a [DEVASTATING WOUNDS] weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.

Pistol

[PISTOL] and [CLOSE-QUARTERS] are identical for all rules purposes.

Units containing one or more models with a [CLOSE-QUARTERS] weapon can shoot using close-quarters shooting (10.06). When using another shooting type, for each model in that unit (excluding MONSTER/VEHICLE models), you can only select one of the following to make attacks with:

- One or more of its [CLOSE-QUARTERS] weapons.
- One or more of its other ranged weapons.

Precision

While resolving attacks made with one or more [PRECISION] weapons, at the start of the Allocation Order step (05.03), if the target unit contains one or more CHARACTER models visible to one or more of the attacking models, the active player can select one allocation group that contains one of those visible CHARACTER models. If they do, until those attacks are resolved, or until that CHARACTER group is destroyed (whichever happens first), that CHARACTER group is the current allocation group.

FACTION RULES

Blessings of Khorne

If your Army Faction is World Eaters, at the start of the battle round, you can make a Blessings of Khorne roll. To do so, roll eight D6. You can then use those dice to activate up to two Blessings of Khorne. Each Blessing of Khorne specifies the dice results it requires (where a number is specified, a double or triple of that value or higher is required). You can only activate each Blessing of Khorne once per battle round. Any unused dice from the Blessings of Khorne roll are then discarded. Once activated, each Blessing of Khorne applies to all units from your army with this ability until the end of the battle round.

Example: Ash makes their Blessings of Khorne roll and gets the following dice: 1, 2, 2, 2, 3, 4, 6, 6. First they use the two 6s to activate Warp Blades (which requires a double 5+), leaving the following dice: 1, 2, 2, 2, 3, 4.

They then use the two 2s to activate Wrathful Devotion (which requires any double), leaving the following dice: 1, 2, 3, 4.

However, now that they have activated two Blessings of Khorne, they cannot activate any more and the remaining dice are discarded.

CORE RULES

Leader

Before the battle, in the Muster Armies step, for each leader and support unit in your army, you can select one friendly bodyguard unit that unit can lead. That unit will then lead that bodyguard unit for the battle and form an attached unit with it. Unless otherwise stated, each bodyguard unit can only have one leader unit and one support unit attached to it.
