ABILITIES

- Defence Searchlight**

At the start of your Shooting phase, you can select one enemy unit within 24" and visible to the bearer. Until the end of the phase, that unit cannot have the Benefit of Cover.
- Fortification**

While an enemy unit is only within Engagement Range of one or more Fortifications from your army:

 - That unit can still be selected as the target of ranged attacks, but each time such an attack is made, unless it is made with a Pistol, subtract 1 from the Hit roll.
 - Models in that unit do not need to take Desperate Escape tests due to Falling Back while Battle-shocked, except for those that will move over enemy models when doing so.
- Sentinel Directives**

Each time you target this unit with the Fire Overwatch Stratagem, hits are scored on unmodified Hit rolls of 5+ when resolving that Stratagem.

WEAPON ABILITIES

- Rapid Fire**

This ability always takes the form [RAPID FIRE X]. Each time you gather attack dice for a [RAPID FIRE] weapon, add X additional attack dice if the target unit was within half range of that weapon in the Select Targets step.

Example: If a [RAPID FIRE 1] weapon with an A characteristic of 1 targets a unit that is within half range, you would gather one additional attack dice for that weapon (for a total of two for that weapon).
- Sustained Hits**

This ability always takes the form [SUSTAINED HITS X]. Each time an attack made with a [SUSTAINED HITS] weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

Example: An attack made with a [SUSTAINED HITS 2] weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the [SUSTAINED HITS 2] ability).
- Twin-linked**

Each time an attack is made with a [TWIN-LINKED] weapon, you can re-roll the wound roll.
