ABILITIES

Broad Spectrum Data-tether
Each time you select the bearer as the target of a Stratagem, roll one D6: on a 5+, you gain 1CP.

Focused Hunters
At the start of the battle, select one unit from your opponent's army. Until the end of the battle, each time a model in this unit makes an attack that targets that unit, you can re-roll the Hit roll.

WEAPON ABILITIES

Anti
This ability always takes the form [ANTI-X Y+]. Each time an attack is made with an [ANTI] weapon, if the target unit has the keyword denoted by X, an unmodified wound roll of Y+ is a critical wound.

Example: An attack made with an [ANTI-VEHICLE 4+] weapon against a Vehicle unit will result in a critical wound on an unmodified wound roll of 4+, while an attack made with an [ANTI-PSYKER 2+] weapon against a Psyker unit will result in a critical wound on an unmodified wound roll of 2+.

Heavy
In your Shooting phase, each time an attack is made with a [HEAVY] weapon, add 1 to the hit roll if all of the following apply to the attacking unit:

- That unit is unengaged.
- That unit was not set up on the battlefield this turn.
- No model in that unit has moved more than 3" this turn.

Ignores Cover
Each time an attack is made with an [IGNORES COVER] weapon, the target cannot have the benefit of cover against that attack (13.08), including from rules that give a model or unit the benefit of cover (e.g. Stealth).

Pistol
[PISTOL] and [CLOSE-QUARTERS] are identical for all rules purposes.

Units containing one or more models with a [CLOSE-QUARTERS] weapon can shoot using close-quarters shooting (10.06). When using another shooting type, for each model in that unit (excluding MONSTER/VEHICLE models), you can only select one of the following to make attacks with:

- One or more of its [CLOSE-QUARTERS] weapons.
- One or more of its other ranged weapons.

AUFSTELLUNG

1x Sydonian Dragoon with radium jezzail (105x70mm Oval Base)

Equipped with: Phosphor serpenta, Radium jezzail, Ironstrider feet

KEYWORDS: Imperium, Skitarii, Vehicle, Walker, Sydonian, Dragoons with Radium Jezzails, Smoke
FACTION KEYWORDS: Adeptus Mechanicus

SYDONIAN DRAGOONS WITH RADIUM JEZZAILS

55–140 PTS

Precision
While resolving attacks made with one or more [**PRECISION**] weapons, at the start of the Allocation Order step (05.03), if the target unit contains one or more CHARACTER models visible to one or more of the attacking models, the active player can select one allocation group that contains one of those visible CHARACTER models. If they do, until those attacks are resolved, or until that CHARACTER group is destroyed (whichever happens first), that CHARACTER group is the current allocation group.

FACTION RULES

Doctrina Imperatives
At the start of the battle round, you can select one of the Doctrina Imperatives below. Until the end of the battle round, that Doctrina Imperative is active for your army, and all units from your army that have the Doctrina Imperatives ability gain the relevant abilities shown below.

PROTECTOR IMPERATIVE

- Ranged weapons equipped by models in this unit have the [**HEAVY**] ability.
- Improve the Ballistic Skill characteristic of ranged weapons equipped by models in this unit by 1.
- Each time a melee attack targets this unit, if this unit has the Battleline keyword and/or it is within 6" of one or more friendly Adeptus Mechanicus Battleline units, subtract 1 from the Hit roll.

CONQUEROR IMPERATIVE

- Ranged weapons equipped by models in this unit have the [ASSAULT] ability.
- Improve the Weapon Skill characteristic of melee weapons equipped by models in this unit by 1.
- Each time a model in this unit makes an attack, if this unit has the Battleline keyword and/or it is within 6" of one or more friendly Adeptus Mechanicus Battleline units, improve the Armour Penetration characteristic of that attack by 1.

CORE RULES

Deadly Demise 1
This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

Example: An Impulsor with a unit of Intercessors embarked within it is destroyed by ranged attacks. First, any unresolved attacks made by the attacking unit are resolved. Then the Intercessors make an emergency disembark move. Then the roll is made for the Deadly Demise ability, and on a 6, that ability is resolved. Finally, the Impulsor is removed from the battlefield.

Stealth
If every model in a unit has this ability, each time a ranged attack targets that unit, that unit has the benefit of cover against that attack (13.08).
