ABILITIES

Damaged: 1-8 Wounds Remaining
While this model has 1-8 wounds remaining, subtract 4 from its Objective Control characteristic and each time this model makes an attack, subtract 1 from the Hit roll.

Mount Up!
At the end of your opponent's Movement phase, if there are no models currently embarked within this Transport, you can select one friendly Astra Militarum Infantry unit (excluding Artillery units) that is wholly within 6" of this Transport. Unless that unit is within Engagement Range of one or more enemy units, it can embark within this Transport.

TRANSPORT

Stormlord
This model has a transport capacity of 40 Astra Militarum Infantry models. Each Ogryn model takes up the space of 3 models. It cannot transport Artillery models.

WEAPON ABILITIES

Ignores Cover
Each time an attack is made with an [IGNORES COVER] weapon, the target cannot have the benefit of cover against that attack (13.08), including from rules that give a model or unit the benefit of cover (e.g. Stealth).

Rapid Fire
This ability always takes the form [RAPID FIRE X]. Each time you gather attack dice for a [RAPID FIRE] weapon, add X additional attack dice if the target unit was within half range of that weapon in the Select Targets step.

Example: If a [RAPID FIRE 1] weapon with an A characteristic of 1 targets a unit that is within half range, you would gather one additional attack dice for that weapon (for a total of two for that weapon).

AUFSTELLUNG

1x Stormlord (Hull)

Equipped with: Heavy stubber, Lascannon, Twin heavy bolter, Twin heavy flamer, Vulcan mega-bolter, Armoured tracks

Wargear Options:
- This model can replace its 2 Twin Heavy Flamers with 2 Twin Heavy Bolters.
- This model can be equipped with one of: 2 Lascannons and 2 Twin Heavy Bolters, 2 Lascannons and 2 Twin Heavy Flamers.

Sustained Hits
This ability always takes the form [**SUSTAINED HITS** X]. Each time an attack made with a [**SUSTAINED HITS**] weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

*Example: An attack made with a [**SUSTAINED HITS** 2] weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the [**SUSTAINED HITS** 2] ability).*

Torrent
Each time an attack is made with a [**TORRENT**] weapon, that attack automatically hits the target.

Twin-linked
Each time an attack is made with a [**TWIN-LINKED**] weapon, you can re-roll the wound roll.

CORE RULES

Deadly Demise D6+2
This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

Example: An Impulsor with a unit of Intercessors embarked within it is destroyed by ranged attacks. First, any unresolved attacks made by the attacking unit are resolved. Then the Intercessors make an emergency disembark move. Then the roll is made for the Deadly Demise ability, and on a 6, that ability is resolved. Finally, the Impulsor is removed from the battlefield.

Firing Deck 12
This ability always takes the form Firing Deck X. In your Shooting phase, each time this TRANSPORT is selected to shoot, if one or more units are embarked within it, resolve the following sequence:

1. Select up to X models embarked within this TRANSPORT (excluding models whose units have already been selected to shoot this phase).

2. For each selected model, select one of its ranged weapons (excluding [ONE SHOT] weapons).

3. Until this TRANSPORT has resolved all of its attacks, it has all of those selected weapons in addition to its other weapons.

4. Until the end of the turn, units embarked within this TRANSPORT are not eligible to shoot.
