BEWEGUNG

Forgewrought Expertise

At the end of your Movement phase, this model can repair one friendly Leagues of Votann Vehicle, Exoframe or Ironkin Steeljacks unit within 3" of it. One model in that unit regains up to D3 lost wounds, or up to 3 lost wounds if this unit contains an Ironkin Assistant model. Each unit can only be repaired once per turn.

Unit Composition

If this unit's Brökhyr Iron-master model is ever destroyed, all of this unit's remaining E-COG models are also destroyed. While embarking within a Transport and while embarked within a Transport, each E-COG model takes up the space of 0 models.

Guerrilla Adeptes

In your Shooting phase, just after this unit is selected to shoot, this unit can use this ability. If it does, select one enemy unit (excluding Monsters and Vehicles). Until the end of the phase, attacks made by models in this unit can only attack that enemy unit (and only if it is an eligible target) and, after resolving those attacks, if one or more of those attacks hit that enemy unit, until the start of your next Shooting phase, that enemy unit is assailed (this simply labels that unit for the purposes of this ability and some Enhancements or Stratagems). If that unit is already assailed, until the start of your next Shooting phase, it is also pinned. While a unit is pinned, subtract 2" from its Move characteristic and subtract 2 from Charge rolls made for it.

Multi-spectral visor

Each time a model in this unit makes a ranged attack, re-roll a Wound roll of 1.
