Titanic Strides

Each time this model makes a Normal, Advance or Fall Back move, it can move through models (excluding Titanic models) and sections of terrain features that are 4" or less in height. When doing so:

It can move within Engagement Range of enemy models, but cannot end that move within Engagement Range of them.

It can also move through sections of terrain features that are more than 4" in height, but if it does, after it has moved, roll one D6: on a 1, this model is battle-shocked.
