Battlesuit Support System

The bearer's unit is eligible to shoot in a turn in which it Fell Back, but when doing so only models equipped with this wargear can make ranged attacks.

Nova Shielding

Once per battle, when this model is selected as the target of a ranged attack, it can use this ability. If it does, until the end of the phase, each time an attack targets this model, if the Strength characteristic of that attack is greater than the Toughness characteristic of this model, subtract 1 from the Wound roll.

Weapon Support System

Each time the bearer makes a ranged attack, you can ignore any or all modifiers to the Hit roll.
