Fortification

While an enemy unit is only within Engagement Range of one or more Fortifications from your army:

- That unit can still be selected as the target of ranged attacks, but each time such an attack is made, unless it is made with a Pistol, subtract 1 from the Hit roll.
- Models in that unit do not need to take Desperate Escape tests due to Falling Back while Battle-shocked, except for those that will move over enemy models when doing so.

Automated Defences

Each time this model makes a ranged attack that targets the closest enemy unit:

- If that attack is made with a Punisher gatling cannon and the target is not a MONSTER or VEHICLE, add 1 to the Hit roll.
- If that attack is made with a battle cannon and the target is a MONSTER or VEHICLE, add 1 to the Hit roll.
- If that attack is made with a quad-lascannon and the target can FLY, add 1 to the Hit roll.

Reinforced Cover

Each time a ranged attack is allocated to a model, if that model is not fully visible to every model in the attacking unit because of this FORTIFICATION, that model has the Benefit of Cover against that attack.
