AUFSTELLUNG

1x Reaper [Legends]

Equipped with: ➤ Storm vortex projector - beam, ➤ Storm vortex projector - blast, Bladevanes, Prow blade

ABILITIES

Damaged: 1-4 Wounds Remaining

While this model has 1-4 wounds remaining, each time this model makes an attack, subtract 1 from the Hit roll.

Electromagnetic Cascade (Pain)

In your Shooting phase, when you select this model to shoot, you can spend 1 Pain token to Empower this model. While Empowered:

- Each time this model makes a ranged attack that targets a Vehicle unit, that attack has the [**SUSTAINED HITS** 2] ability.
- Each time this model makes a ranged attack that targets a non-Vehicle unit, that attack has the [**SUSTAINED HITS** 1] ability.

Eradicate the Foe

Each time this model makes an attack that targets an enemy unit that is at its Starting Strength, re-roll a Hit roll of 1. If the target unit has a Starting Strength of 1, this ability only applies if that unit has its starting number of wounds.

KEYWORDS: Vehicle, Kabal, Fly, Aeldari, Reaper

FACTION: Drukhari

WEAPON RULES

Blast

Each time you gather attack dice for a [**BLAST**] weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form [**BLAST** X], each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

*Example: If a [**BLAST** 2] weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).*

Extra Attacks

Each time a unit containing one or more models with an [**EXTRA ATTACKS**] weapon fights, those models will make attacks with those weapons in addition to any others. In the Select Weapons step (04.01), for each of those models, you must select:

- All of that model's [**EXTRA ATTACKS**] weapons.

- One of that model's other melee weapons, if possible.

Lance

Each time an attack is made with a [**LANCE**] weapon, if the attacking model's unit made a charge move this turn, add 1 to the wound roll.

Sustained Hits

This ability always takes the form [**SUSTAINED HITS** X]. Each time an attack made with a [**SUSTAINED HITS**] weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

*Example: An attack made with a [**SUSTAINED HITS** 2] weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the [**SUSTAINED HITS** 2] ability).*

RULES

Deadly Demise D3

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

Deep Strike

Each time this unit makes an ingress move (20.04), if every model in this unit has this ability, it can be set up anywhere on the battlefield that is more than 8" horizontally from all enemy units, even if that is within your opponent's deployment zone.

Power from Pain

All Drukhari units have a Pain ability, tagged with the word 'Pain'. Pain abilities only apply to a unit while it is Empowered. If your Army Faction is Drukhari, you can Empower units from your army with Pain abilities by spending Pain tokens (see below).

GAINING PAIN TOKENS

If your Army Faction is Drukhari, you gain Pain tokens as follows:

- 1 Pain token at the start of your Command phase.
- 1 Pain token each time an enemy unit is destroyed.
- 1 Pain token each time an enemy unit fails a Battle-shock test.

Each time you gain a Pain token, keep it to one side – this is your Pain token pool. Each time you spend a Pain token, reduce your Pain token pool by the same amount.

EMPOWERED THROUGH PAIN

Each Pain ability will state when you can spend Pain tokens to Empower that unit. When you do, until the end of the phase, that unit is Empowered and all Pain abilities it has take effect. While an Attached unit is Empowered, the Pain abilities of all Leader and Bodyguard units in that unit take effect - you do not need to spend additional Pain tokens to activate each of those Pain abilities.
