WEAPON RULES

Blast

Each time you gather attack dice for a [**BLAST**] weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form [**BLAST** X], each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

*Example: If a [**BLAST** 2] weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).*

Devastating Wounds

Each time an attack made with a [**DEVASTATING WOUNDS**] weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by [**DEVASTATING WOUNDS**] weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

*Example: An attack made with a [**DEVASTATING WOUNDS**] weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.*

Hazardous

Each time a unit is selected to shoot or selected to fight, after that unit has resolved all of its attacks, make a number of hazard rolls (06.03) for that unit equal to the number of [**HAZARDOUS**] weapons you selected in the Select Weapons step.

One Shot

Each weapon with this ability can only be selected to make attacks with once per battle.

If a destroyed model is returned to a unit, all of its [**ONE SHOT**] weapons that have already been selected to make attacks with during the battle cannot be selected to make attacks with again.

If a new unit is added to an army, all [**ONE SHOT**] weapons in that unit can be selected to make attacks with once per battle.

RULES

Deadly Demise D3

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

For The Greater Good

If your Army Faction is T'AU EMPIRE, at the start of your Shooting phase you can select units from your army with this ability to become Observer units.

During your Shooting phase, for each Observer unit from your army that has not been selected to shoot this phase and is eligible to shoot (excluding FORTIFICATION and Battle-shocked units) select one enemy unit that is visible to be marked as their Spotted unit until the end of the phase. Each enemy unit can only be marked as a Spotted unit once per phase.

Units from your army with the For the Greater Good ability (excluding Observer units) are Guided units while targeting one or more Spotted units.

Until the end of the phase, each time a model from your army in a Guided unit makes an attack that targets a Spotted unit, improve the Ballistic Skill characteristic of that attack by 1 and, if the Spotted unit was marked by an Observer unit that has the Markerlight keyword, that attack has the [IGNORES COVER] ability.
