✂ MELEE WEAPONS

WEAPON	RANGE	A	WS	S	AP	D
Bladevanes LANCE	Melee	4	3+	4	-1	1

Eviscerating Fly-by

Each time this unit ends a Normal or Advance move, you can select one enemy unit (excluding Monster and Vehicle units) that it moved over during that move, then roll one D6 for each model in this unit: for each 4+, that enemy unit suffers 1 mortal wound.

Grav Talon

The bearer's melee weapons have an Armour Penetration characteristic of -2 and the [Lethal Hits] ability.

Matchless Swiftess (Pain)

In your Movement phase, when you select this unit to Advance, you can spend 1 Pain token to Empower this unit. While Empowered, each time this unit Advances, do not make an Advance roll. Instead, until the end of the phase, add 8" to the Move characteristic of models in this unit.

WEAPON RULES

Anti

This ability always takes the form [ANTI-X Y+]. Each time an attack is made with an [ANTI] weapon, if the target unit has the keyword denoted by X, an unmodified wound roll of Y+ is a critical wound.

Example: An attack made with an [ANTI-VEHICLE 4+] weapon against a Vehicle unit will result in a critical wound on an unmodified wound roll of 4+, while an attack made with an [ANTI-PSYKER 2+] weapon against a Psyker unit will result in a critical wound on an unmodified wound roll of 2+.

Assault

Units containing one or more models with an [ASSAULT] weapon can shoot using **assault** shooting (10.05).

Lance

Each time an attack is made with a [LANCE] weapon, if the attacking model's unit made a charge move this turn, add 1 to the wound roll.

Lethal Hits

Each time an attack made with a [LETHAL HITS] weapon results in a critical hit, you can choose for that attack to automatically wound the target.

Designer's Note: Choosing to automatically wound the target means that no wound roll is made for that attack. You may decide against this, as it means that attack cannot result in a critical wound and so cannot trigger other abilities such as [DEVASTATING WOUNDS].

Pistol

[PISTOL] and [CLOSE-QUARTERS] are identical for all rules purposes.

Units containing one or more models with a [CLOSE-QUARTERS] weapon can shoot using close-quarters shooting (10.06). When using another shooting type, for each model in that unit (excluding MONSTER/VEHICLE models), you can only select one of the following to make attacks with:

- One or more of its [CLOSE-QUARTERS] weapons.
- One or more of its other ranged weapons.
