ABILITIES

RULES - Deadly Demise 1, Deep Strike, Firing Deck 6, Power from Pain, Stealth

Aerialists

At the end of the Fight phase, if there are no models currently embarked within this TRANSPORT, you can select one friendly DRUKHARI INFANTRY unit that has 6 or fewer models that is wholly within 6" of this TRANSPORT (you cannot select a unit that can FLY). Unless that unit is within Engagement Range of one or more enemy units, it can embark within this TRANSPORT. That unit can embark within this TRANSPORT in a turn it disembarked from a TRANSPORT.

Rapid Deployment (Pain)

In your Movement phase, when you select this model to Advance, you can spend 1 Pain token to Empower this model. While Empowered, units can disembark from this model after it has Advanced. Units that do so count as having made a Normal move that phase, and cannot declare a charge in the same turn, but can otherwise act normally in the remainder of the turn.

Venom (Transport)

Capacity: This model has a transport capacity of 6 DRUKHARI INFANTRY models (excluding JUMP PACK models).

Before the battle, at the start of the Declare Battle Formations step, you can select one KABALITE WARRIORS, HAND OF THE ARCHON or WYCHES unit from your army that has not already been split. If you do, that unit is split into two units, each containing as equal a number of models as possible (when splitting a unit in this way, make a note of which models form each of the two new units). One of these units must start the battle embarked within this model; the other can start the battle embarked within another TRANSPORT, or it can be deployed as a separate unit.

WEAPON RULES

Anti

This ability always takes the form [ANTI-X Y+]. Each time an attack is made with an [ANTI] weapon, if the target unit has the keyword denoted by X, an unmodified wound roll of Y+ is a critical wound.

Example: An attack made with an [ANTI-VEHICLE 4+] weapon against a Vehicle unit will result in a critical wound on an unmodified wound roll of 4+, while an attack made with an [ANTI-PSYKER 2+] weapon against a Psyker unit will result in a critical wound on an unmodified wound roll of 2+.

Assault

Units containing one or more models with an [ASSAULT] weapon can shoot using **assault** shooting (10.05).

Sustained Hits

This ability always takes the form [SUSTAINED HITS X]. Each time an attack made with a [SUSTAINED HITS] weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

Example: An attack made with a [SUSTAINED HITS 2] weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the [SUSTAINED HITS 2] ability).

Twin-linked

Each time an attack is made with a [TWIN-LINKED] weapon, you can re-roll the wound roll.
