RULES - Deep Strike, Infiltrators, Lone Operative, Stealth

Planted Explosives

Once per battle, when an enemy unit ends a Normal, Advance or Fall Back move within 8" of this model, this model can use its Reductus mine. If it does, roll one D6: on a 2+, that enemy unit suffers D3+3 mortal wounds. Only one model from your army with this ability can use it in the same battle round.

Primed and Ready

In your Shooting phase, you can select one model from your army with this ability as the target of the Grenade Stratagem for 0CP, provided that model has not already been the target of that Stratagem this phase.

WEAPON RULES

Assault
Units containing one or more models with an [**ASSAULT**] weapon can shoot using **assault** shooting (10.05).

Blast
Each time you gather attack dice for a [**BLAST**] weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form [**BLAST** X], each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

*Example: If a [**BLAST** 2] weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).*

Indirect Fire
Units containing one or more models with an [**INDIRECT FIRE**] weapon can shoot using indirect shooting (10.07).

Pistol
[**PISTOL**] and [CLOSE-QUARTERS] are identical for all rules purposes.

Units containing one or more models with a [CLOSE-QUARTERS] weapon can shoot using close-quarters shooting (10.06). When using another shooting type, for each model in that unit (excluding MONSTER/VEHICLE models), you can only select one of the following to make attacks with:

- One or more of its [CLOSE-QUARTERS] weapons.

- One or more of its other ranged weapons.
