ABILITIES

RULES - Deadly Demise D3, Doctrina Imperatives, Firing Deck 2

Broad spectrum data-tether

Each time you select the bearer as the target of a Stratagem, roll one D6: on a 5+, you gain 1CP.

Fire Support

In your Shooting phase, after this model has shot, select one enemy unit it scored one or more hits against this phase. Until the end of the phase, each time a friendly model that disembarked from this Transport this turn makes an attack that targets that enemy unit, you can re-roll the Wound roll.

Skorpius Dunerider (Transport)

Capacity: This model has a transport capacity of 12 Adeptus Mechanicus Infantry models. It cannot transport Jump Pack, Kataphron or Sydonian Skatros models.

WEAPON RULES

Rapid Fire

This ability always takes the form [RAPID FIRE X]. Each time you gather attack dice for a [RAPID FIRE] weapon, add X additional attack dice if the target unit was within half range of that weapon in the Select Targets step.

Example: If a [RAPID FIRE 1] weapon with an A characteristic of 1 targets a unit that is within half range, you would gather one additional attack dice for that weapon (for a total of two for that weapon).

Sustained Hits

This ability always takes the form [SUSTAINED HITS X]. Each time an attack made with a [SUSTAINED HITS] weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

Example: An attack made with a [SUSTAINED HITS 2] weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the [SUSTAINED HITS 2] ability).

Twin-linked

Each time an attack is made with a [TWIN-LINKED] weapon, you can re-roll the wound roll.
