ABILITIES

RULES - Reanimation Protocols, Scouts 8"

Accelerator Mandible

At the start of the Fight phase, select one friendly Canoptek unit within 3" of the bearer's unit. Until the end of the phase, improve the Weapon Skill characteristic of weapons equipped by models in that unit by 1.

Harassment Swarm (Aura)

While an enemy unit (excluding Monsters and Vehicles) is within 3" of this unit, each time a model in that unit makes an attack, subtract 1 from the Hit roll.

Nanoscarab Projector

Once per battle round, when a friendly Necrons unit within 3" of the bearer activates its Reanimation Protocols, the bearer can use this ability. If it does, that unit reanimates 1 additional wound.

WEAPON RULES

Assault

Units containing one or more models with an **[ASSAULT]** weapon can shoot using **assault** shooting (10.05).

Lethal Hits

Each time an attack made with a **[LETHAL HITS]** weapon results in a critical hit, you can choose for that attack to automatically wound the target.

*Designer's Note: Choosing to automatically wound the target means that no wound roll is made for that attack. You may decide against this, as it means that attack cannot result in a critical wound and so cannot trigger other abilities such as **[DEVASTATING WOUNDS]**.*

Sustained Hits

This ability always takes the form **[SUSTAINED HITS X]**. Each time an attack made with a **[SUSTAINED HITS]** weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

*Example: An attack made with a **[SUSTAINED HITS 2]** weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the **[SUSTAINED HITS 2]** ability).*
