ABILITIES

RULES - Deep Strike, Reanimation Protocols

Aggressor Guardian

Each time an attack targets this model, if this model is within range of an objective marker, worsen the Armour Penetration characteristic of that attack by 1. In addition, each time this model makes an attack that targets a unit within range of an objective marker, improve the Armour Penetration characteristic of that attack by 1.

Distortion Fields (Aura)

While an enemy unit is within 6" of this unit, it is unravelling. While an enemy unit is unravelling, each time an attack targets that unit, improve the Armour Penetration characteristic of that attack by 1.

At the start of each phase, for each Necrons Monster unit from your army, that unit can suffer 3 mortal wounds. If it does, until the end of the phase, the range of that unit's Distortion Fields Aura ability is increased to 9".

Gloom Prism (Aura)

While a friendly Necrons unit is within 6" of the bearer, models in that unit have the Feel No Pain 4+ ability against Psychic Attacks.

WEAPON RULES

Blast

Each time you gather attack dice for a [**BLAST**] weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form [**BLAST** X], each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

*Example: If a [**BLAST** 2] weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).*
