ABILITIES

RULES - Deep Strike, For The Greater Good, Scouts 8"

Exemplars of Mont'ka

Each time a model in this unit makes a ranged attack that targets the closest eligible target, that attack has the **[SUSTAINED HITS 1]** and **[IGNORES COVER]** abilities.

MV15 Gun Drone

The bearer is equipped with 1 twin pulse blaster.

Neocapacitor Shields

At the start of your opponent's Charge phase, you can select one visible enemy unit (excluding MONSTER and VEHICLE units) within 12" of this unit. That unit must take a Battle-shock test and, until the end of the turn, subtract 1 from Charge rolls made for that unit.

✂ MELEE WEAPONS

WEAPON	RANGE	A	WS	S	AP	D
Fusion eliminator EXTRA ATTACKS	Melee	1	4+	10	-4	D6+2
Ion scattercannon EXTRA ATTACKS	Melee	3	4+	7	-2	2
XV pulse pistol	Melee	4	3+	6	-1	2

◆ Retro-thrusters

At the end of the Fight phase, if this unit was eligible to fight this phase, this unit can either make a Normal move of up to 6" or a Fall Back move.

WEAPON RULES

Assault

Units containing one or more models with an [ASSAULT] weapon can shoot using **assault** shooting (10.05).

Extra Attacks

Each time a unit containing one or more models with an [EXTRA ATTACKS] weapon fights, those models will make attacks with those weapons in addition to any others. In the Select Weapons step (04.01), for each of those models, you must select:

- All of that model's [EXTRA ATTACKS] weapons.
- One of that model's other melee weapons, if possible.

Hazardous

Each time a unit is selected to shoot or selected to fight, after that unit has resolved all of its attacks, make a number of hazard rolls (06.03) for that unit equal to the number of [HAZARDOUS] weapons you selected in the Select Weapons step.

Ignores Cover

Each time an attack is made with an [IGNORES COVER] weapon, the target cannot have the benefit of cover against that attack (13.08), including from rules that give a model or unit the benefit of cover (e.g. Stealth).

Melta

This ability always takes the form [MELTA X]. Each time a model makes an attack with a [MELTA] weapon, if the target unit was within half range of that weapon in the Select Targets step, until the attacking unit's attacks have been resolved, add X to that weapon's D characteristic.

Example: A model targets a unit that is within half range of a [MELTA 2] weapon with a D characteristic of D6. While resolving those attacks, that weapon has a D characteristic of D6+2.

Pistol

[PISTOL] and [CLOSE-QUARTERS] are identical for all rules purposes.

Units containing one or more models with a [CLOSE-QUARTERS] weapon can shoot using close-quarters shooting (10.06). When using another shooting type, for each model in that unit (excluding MONSTER/VEHICLE models), you can only select one of the following to make attacks with:

- One or more of its [CLOSE-QUARTERS] weapons.
- One or more of its other ranged weapons.

Rapid Fire

This ability always takes the form [RAPID FIRE X]. Each time you gather attack dice for a [RAPID FIRE] weapon, add X additional attack dice if the target unit was within half range of that weapon in the Select Targets step.

Example: If a [RAPID FIRE 1] weapon with an A characteristic of 1 targets a unit that is within half range, you would gather one additional attack dice for that weapon (for a total of two for that weapon).

Sustained Hits

This ability always takes the form [SUSTAINED HITS X]. Each time an attack made with a [SUSTAINED HITS] weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

Example: An attack made with a [SUSTAINED HITS 2] weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the [SUSTAINED HITS 2] ability).

Twin-linked

Each time an attack is made with a [TWIN-LINKED] weapon, you can re-roll the wound roll.
