AUFSTELLUNG
1x Knight Abominant (170x109mm Oval Base)
Equipped with: Diabolus heavy stubber, Volkite combustor, Balemace, Electroscourge

ABILITIES

- *Invulnerable Save**
This model has a 5+ invulnerable save against ranged attacks.
- Damaged: 1-9 wounds remaining**
While this model has 1-9 wounds remaining, subtract 5 from this model's Objective Control characteristic and each time this model makes an attack, subtract 1 from the Hit roll.

- Vortex Terrors (Psychic)**
At the start of your Shooting phase, select one enemy unit within 24" of and visible to this model. That enemy unit must take a Battle-shock test.
- Warp Storms (Psychic)**
At the end of your Movement phase, roll one D6 for each enemy unit within 9" of one or more models with this ability: on a 3+, that enemy unit suffers D3 mortal wounds.

WEAPON RULES

DEVASTATING WOUNDS

Each time an attack made with a [DEVASTATING WOUNDS] weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by [DEVASTATING WOUNDS] weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

Example: An attack made with a [DEVASTATING WOUNDS] weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.

EXTRA ATTACKS

Each time a unit containing one or more models with an [EXTRA ATTACKS] weapon fights, those models will make attacks with those weapons in addition to any others. In the Select Weapons step (04.01), for each of those models, you must select:

- All of that model's [EXTRA ATTACKS] weapons.
- One of that model's other melee weapons, if possible.

IGNORES COVER

Each time an attack is made with an [IGNORES COVER] weapon, the target cannot have the benefit of cover against that attack (13.08), including from rules that give a model or unit the benefit of cover (e.g. Stealth).

RAPID FIRE

This ability always takes the form [RAPID FIRE X]. Each time you gather attack dice for a [RAPID FIRE] weapon, add X additional attack dice if the target unit was within half range of that weapon in the Select Targets step.

Example: If a [RAPID FIRE 1] weapon with an A characteristic of 1 targets a unit that is within half range, you would gather one additional attack dice for that weapon (for a total of two for that weapon).

SUSTAINED HITS

This ability always takes the form [SUSTAINED HITS X]. Each time an attack made with a [SUSTAINED HITS] weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

Example: An attack made with a [SUSTAINED HITS 2] weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the [SUSTAINED HITS 2] ability).

CORE RULES

◆ Deadly Demise D6

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

◆ Harbingers of Dread

If your Army Faction is Chaos Knights, each model from your army with this ability gains Dread abilities, depending which are active for your army. The Deathly Terror ability is active for your army from the start of the battle. In addition, at the start of the first, third and fifth battle rounds, you can either select one of the other Dread abilities or randomly select two Dread abilities to apply by rolling two D6 and applying the results rolled, from those numbered 1-6 below.

Any Dread abilities that have been selected are active until the end of the battle. You cannot select the same Dread ability more than once, and any duplicated Dread abilities (as a result of randomly selecting them) have no additional effect.

N/A - Deathly Terror (Aura)

While an enemy unit is within 9" of this model, worsen the Leadership characteristic of models in that unit by 1.

1 - Despair (Aura)

While an enemy unit is within 9" of this model, worsen the Leadership characteristic of models in that unit by 1. This is cumulative with the Deathly Terror ability (see above).

2 - Doom

Each time this model makes an attack, if the target is Battle-shocked, add 1 to the Wound roll.

3 - Darkness

This model has Stealth.

4 - Dismay (Aura)

In the Battle-shock step of your opponent's Command phase, for each enemy unit that is below its Starting Strength and within 9" of this model, that enemy unit must take a Battle-shock test.

5 - Delirium (Aura)

While an enemy unit that is Below Half-strength is within 9" of this model, each time that model fails a Battle-shock test, it suffers D3 mortal wounds.

6 - Dominion

Add 3" to the range of this model's Aura abilities.

◆ Super-Heavy Walker

Each time a unit with this ability makes a normal, advance or fall-back move:

- Models in that unit can move through models (including MONSTER/VEHICLE models, but excluding TITANIC models) and can move horizontally through sections of terrain features that are 4" or less in height.

- Before moving that unit, you can select for all models in that unit to have the MOBILE keyword until that move ends. If you do, when that move ends, roll one D6: on a 1, that unit is battle-shocked.

Designer's Note: Gaining the MOBILE keyword for the duration of a move will enable models in that unit to move horizontally through dense terrain features (13.06).
