ABILITIES

CORE - Leader

Arcane Shield (Psychic)
While this model is leading a unit, models in that unit have a 4+ invulnerable save.

Mortal Sorcery (Aura)
While a friendly Scintillating Legions Psyker unit from your army is within 6" of and visible to this unit, that Scintillating Legions unit has the Cabal of Sorcerers ability.

Rebind Rubricae (Psychic)

In your Command phase, if this model is leading a unit, you can roll one D6: on a 1, that unit suffers D3 mortal wounds; on a 2-5, you can return 1 destroyed Bodyguard model to that unit; on a 6, you can return up to 2 destroyed Bodyguard models to that unit.

Leader

This model can be attached to the following unit: RUBRIC MARINES

WEAPON RULES

BLAST

Each time you gather attack dice for a [BLAST] weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form [BLAST X], each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

Example: If a [BLAST 2] weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).

DEVASTATING WOUNDS

Each time an attack made with a [DEVASTATING WOUNDS] weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by [DEVASTATING WOUNDS] weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

Example: An attack made with a [DEVASTATING WOUNDS] weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.

PISTOL

[PISTOL] and [CLOSE-QUARTERS] are identical for all rules purposes.

Units containing one or more models with a [CLOSE-QUARTERS] weapon can shoot using close-quarters shooting (10.06). When using another shooting type, for each model in that unit (excluding MONSTER/VEHICLE models), you can only select one of the following to make attacks with:

- One or more of its [CLOSE-QUARTERS] weapons.
- One or more of its other ranged weapons.

PSYCHIC

Each time an attack is made with a [PSYCHIC] weapon, you can ignore any or all modifiers to that attack's BS or WS characteristic and any or all modifiers to the hit roll. Attacks made with [PSYCHIC] weapons are known as **psychic** attacks (this can be important for the triggering of other rules).

CORE RULES

◆ Cabal of Sorcerers

If your army Faction is Thousand Sons, at the start of your Shooting phase, one or more models from your army with this ability can attempt Rituals. To do so, select one model from your army with this ability that has not yet attempted a Ritual this turn and select one Ritual no model from your army has attempted to manifest this turn, then take a **Psychic** test by following the sequence below:

1. Roll 2D6
2. Optionally, roll one additional D6 (Channel the Warp). Then, if one or more doubles or triples were rolled during this test, that model's unit suffers D3 mortal wounds.
3. If that model is not destroyed, the combined total of all the dice rolled during this test is the **Psychic** test result. If this equals or exceeds the Warp Charge value of the Ritual being attempted, that model manifests that Ritual and you resolve its effects.

◆ Leader

Before the battle, in the Muster Armies step, for each leader and support unit in your army, you can select one friendly bodyguard unit that unit can lead. That unit will then lead that bodyguard unit for the battle and form an attached unit with it. Unless otherwise stated, each bodyguard unit can only have one leader unit and one support unit attached to it.
