ABILITIES

Damaged: 1-6 wounds remaining
While this unit's Szarekh model has 1-6 wounds remaining, halve the Attacks characteristic of that model's weapons, and each time this unit makes an attack, subtract 1 from the Hit roll.

The Silent King (Aura)
While a friendly NECRONS unit is within 6" of this unit's Szarekh model, improve that unit's Leadership characteristic by 1.

Triarchal Menhirs
If this unit's Szarekh model is destroyed, all of this unit's remaining Triarchal Menhir models are also destroyed.

Voice of the Triarch
At the start of the battle round, select one Triarch ability. Until the start of the next battle round, this unit has that ability.

Phaeron of the Stars (Aura) (Triarch Abilities)
Effect: While a friendly Necrons unit (excluding Monster units) is within 6" of this unit's Szarekh model, each time a model in that unit makes an attack, re-roll a Hit roll of 1 and re-roll a Wound roll of 1.

Phaeron of the Blades (Aura) (Triarch Abilities)
Effect: While a friendly Necrons (excluding Monster units) unit is within 6" of this unit's Szarekh model, you can re-roll Charge rolls made for that unit and each time a model in that unit makes a melee attack, add 1 to the Strength characteristic of that attack.

Relentless March (Aura) (Triarch Abilities)

Effect: While a friendly NECRONS unit is within 6" of this unit's Szarekh model, add 2" to the Move characteristic of models in that unit.

WEAPON RULES

DEVASTATING WOUNDS

Each time an attack made with a [DEVASTATING WOUNDS] weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by [DEVASTATING WOUNDS] weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

Example: An attack made with a [DEVASTATING WOUNDS] weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.

INDIRECT FIRE

Units containing one or more models with an [INDIRECT FIRE] weapon can shoot using indirect shooting (10.07).

LETHAL HITS

Each time an attack made with a [LETHAL HITS] weapon results in a critical hit, you can choose for that attack to automatically wound the target.

Designer's Note: Choosing to automatically wound the target means that no wound roll is made for that attack. You may decide against this, as it means that attack cannot result in a critical wound and so cannot trigger other abilities such as [DEVASTATING WOUNDS].

CORE RULES

◆ Deadly Demise D6+3 (Szarekh model only)

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

◆ Reanimation Protocols

If your Army Faction is NECRONS, at the end of your Command phase, each friendly unit with this ability that is on the battlefield activates its Reanimation Protocols:

- When a unit's Reanimation Protocols activate, that unit heals D3 wounds.
