Devilfish (Transport)

Capacity: This model has a transport capacity of 12 T'AU EMPIRE INFANTRY models. It cannot transport BATTLESUIT, KROOT or VESPID STINGWINGS models.

WEAPON RULES

ASSAULT

Units containing one or more models with an ASSAULT weapon can shoot using **assault** shooting (10.05).

INDIRECT FIRE

Units containing one or more models with an INDIRECT FIRE weapon can shoot using indirect shooting (10.07).

ONE SHOT

Each weapon with this ability can only be selected to make attacks with once per battle. If a destroyed model is returned to a unit, all of its ONE SHOT weapons that have already been selected to make attacks with during the battle cannot be selected to make attacks with again.
If a new unit is added to an army, all ONE SHOT weapons in that unit can be selected to make attacks with once per battle.

TWIN-LINKED

Each time an attack is made with a TWIN-LINKED weapon, you can re-roll the wound roll.

CORE RULES

◆ **Deadly Demise D3**

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

◆ **For The Greater Good**

If your Army Faction is T'AU EMPIRE, at the start of your Shooting phase you can select units from your army with this ability to become Observer units.

During your Shooting phase, for each Observer unit from your army that has not been selected to shoot this phase and is eligible to shoot (excluding FORTIFICATION and Battle-shocked units) select one enemy unit that is visible to be marked as their Spotted unit until the end of the phase. Each enemy unit can only be marked as a Spotted unit once per phase.

Units from your army with the For the Greater Good ability (excluding Observer units) are Guided units while targeting one or more Spotted units.

Until the end of the phase, each time a model from your army in a Guided unit makes an attack that targets a Spotted unit, improve the Ballistic Skill characteristic of that attack by 1 and, if the Spotted unit was marked by an Observer unit that has the Markerlight keyword, that attack has the [IGNORES COVER] ability.
