ENHANCEMENTS

Decoy Targets

15 pts

Callidus Assassin models only. Twice per battle, in your Movement phase, you can select one other friendly Infantry model that is on the battlefield and not within Engagement Range of one or more enemy units. The selected model is destroyed (ignoring any rules that are triggered when a model is destroyed) and this model is removed from the battlefield and set up again as close as possible to where that destroyed model was and not within Engagement Range of one or more enemy units. This ability cannot be used more than once in the same battle round.

Esoteric Explosives

10 pts

Culexus Assassin models only. Each time this model is targeted with the Explosives Stratagem, 1 mortal wound is inflicted for each D6 roll of 3+ instead of for each 4+.

Intraneural Biotech

15 pts

EVERSOR ASSASSIN model only. You can target this unit with the Heroic Intervention stratagem, regardless of any other uses of that stratagem this phase. If you do:

- That use is -1 CP.
- That use does not prevent any uses of that stratagem on other units this phase.

Micromelta Rounds

20 pts

Vindicare Assassin models only. This model's exitus rifle has the [ANTI-MONSTER 4+] and [ANTI-VEHICLE 4+] abilities.

DETACHMENT-REGEL

Officio Assassinorum units from your army can use the Overkill, Soulless Horror and Shieldbreaker abilities twice per battle, instead of once per battle (but cannot use such an ability more than once in the same battle round).

When mustering your army, each Officio Assassinorum unit from your army has the relevant Extremis ability, and you must increase the points cost of each of those units by the amount shown. If this causes your army to exceed the points limit for the battle you are playing, you cannot include that unit in your army.
