Armoured hull	Melee	8	4+	8	0	1

ABILITIES

Aerial Deployment If this model starts the game in Hover mode and in Strategic Reserves, it can be set up in the Reinforcements step of your first, second or third Movement phase, regardless of any mission rules.
Damaged: 1-10 wounds remaining While this model has 1-10 wounds remaining, each time this model makes an attack, subtract 1 from the Hit roll.
Transport This model has a transport capacity of 15 Adeptus Astartes Infantry or Adeptus Astartes Mounted models. Each Jump Pack, Wulfen, Gravis or Terminator model takes up the space of 2 models. Each Centurion model takes up the space of 3 models. Each Mounted model takes up the space of 4 models. This model can also transport up to 2 Adeptus Astartes Vehicle models (excluding Aircraft and Titanic models). Models embarked within Transport Vehicles that are themselves being transported by this model do not count towards the transport capacity of this model.

WEAPON ABILITIES

Anti This ability always takes the form [ANTI-X Y+]. Each time an attack is made with an [ANTI] weapon, if the target unit has the keyword denoted by X, an unmodified wound roll of Y+ is a critical wound. <i>Example: An attack made with an [ANTI-VEHICLE 4+] weapon against a Vehicle unit will result in a critical wound on an unmodified wound roll of 4+, while an attack made with an [ANTI-PSYKER 2+] weapon against a Psyker unit will result in a critical wound on an unmodified wound roll of 2+.</i>
Sustained Hits This ability always takes the form [SUSTAINED HITS X]. Each time an attack made with a [SUSTAINED HITS] weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X. <i>Example: An attack made with a [SUSTAINED HITS 2] weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the [SUSTAINED HITS 2] ability).</i>
Twin-linked Each time an attack is made with a [TWIN-LINKED] weapon, you can re-roll the wound roll.

AUFSTELLUNG

1x Thunderhawk Transporter [Legends]

Equipped with: Hellstrike missile battery, Twin heavy bolter, Armoured hull

KEYWORDS:

Vehicle, Titanic, Fly, Aircraft, Transport, Imperium, Thunderhawk Transporter

FACTION KEYWORDS:

Adeptus Astartes

FACTION RULES

Combat Doctrines

At the start of your Command phase, you can select one Combat Doctrine listed below. If you do, that Combat Doctrine is active for friendly ADEPTUS ASTARTES units with this ability until the start of your next Command Phase

Assault Doctrine

When this unit is selected to make an Advance move, that Advance move does not prevent this unit from being eligible to declare a charge.

Devastator Doctrine

This unit's ranged attacks have [ASSAULT]

Tactical Doctrine

When this unit is selected to make a Fall-back move, that Fall-back move does not prevent this unit from being eligible to shoot and eligible to declare a charge.

Unless otherwise stated.

- You can only select each Combat Doctrine once per battle

- Only one Combat Doctrine can be active for each unit. If a rule make a Combat Doctrine active for a unit, any Combat Doctrine previously active for that unit is no longer active for that unit.

CORE RULES

Deadly Demise D6+2

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

Example: An Impulsor with a unit of Intercessors embarked within it is destroyed by ranged attacks. First, any unresolved attacks made by the attacking unit are resolved. Then the Intercessors make an emergency disembark move. Then the roll is made for the Deadly Demise ability, and on a 6, that ability is resolved. Finally, the Impulsor is removed from the battlefield.

Hover

Each time this unit takes to the skies (21.03), do not subtract 2" from the maximum distance.
