AUFSTELLUNG

1x Drop Pod (Hull)

ABILITIES

Deployment Complete

When this unit is set up on the battlefield and all units within it have disembarked, units cannot embark within this TRANSPORT

Drop Pod Assault

- This unit must start the battle in strategic reserves.
- In your first Movement phase, this unit can make an ingress move.
- When this unit is set up, all units embarked within this unit must make a disembark/assault disembark move (pg 157), and those units must be set up more than 8" away from all enemy units.

Transport

This model has a transport capacity of 12 Adeptus Astartes Infantry models. It cannot transport GRAVIS/JUMP PACK/TERMINATOR models.

CORE RULES

Combat Doctrines

At the start of your Command phase, you can select one Combat Doctrine listed below. If you do, that Combat Doctrine is active for friendly ADEPTUS ASTARTES units with this ability until the start of your next Command Phase

Assault Doctrine

When this unit is selected to make an Advance move, that Advance move does not prevent this unit from being eligible to declare a charge.

Devastator Doctrine

This unit's ranged attacks have [ASSAULT]

Tactical Doctrine

When this unit is selected to make a Fall-back move, that Fall-back move does not prevent this unit from being eligible to shoot and eligible to declare a charge.

Unless otherwise stated.

- You can only select each Combat Doctrine once per battle
- Only one Combat Doctrine can be active for each unit. If a rule make a Combat Doctrine active for a unit, any Combat Doctrine previously active for that unit is no longer active for that unit.

Deadly Demise 1

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

Deep Strike

Each time this unit makes an ingress move (20.04), if every model in this unit has this ability, it can be set up anywhere on the battlefield that is more than 8" horizontally from all enemy units, even if that is within your opponent's deployment zone.
