- That disembarking unit's attacks that target a MONSTER/VEHICLE unit have +1 to wound rolls until the end of the turn.

FACTION RULES

Unstable Energies

ORKS PSYKER units with this ability have a psyker level of 1 or higher, specified in that unit's abilities. Each psychic ability has a psychic level of 1 or higher, specified in that ability's name.

In a battle round, a friendly ORKS PSYKER unit can use a number of psychic abilities whose total psychic level does not exceed that PSYKER unit's psyker level.

Waaagh!

Friendly ORKS with this ability can:

- Re-roll advance rolls.
- Become riled up, as stated in other rules.

While a unit is riled up:

- That unit has 5+ InSv.
- That unit's ranged attacks have [ASSAULT].
- When that unit is selected to make an advance move, that advance move does not prevent that unit from being eligible to declare a charge.

CORE RULES

Deadly Demise D6

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

Example: An Impulsor with a unit of Intercessors embarked within it is destroyed by ranged attacks. First, any unresolved attacks made by the attacking unit are resolved. Then the Intercessors make an emergency disembark move. Then the roll is made for the Deadly Demise ability, and on a 6, that ability is resolved. Finally, the Impulsor is removed from the battlefield.
