Kustom Force Field

Hordeboss only. While the bearer is leading a unit, models in that unit have a 4+ invulnerable save against ranged attacks.

Malicious Opportunist

Upstart Gretchin only. While this model is leading a unit, each time a model in that unit makes an attack, add 1 to the Hit roll and add 1 to the Wound roll.

While a unit is confrazzled, each time a Battle-shock or Leadership test is taken for it, subtract 2 from that test.

Rokkit Pack

Hordeboss only. Change this model's Move characteristic to 12", add the Jump Pack and Fly keywords, and it gains the Deep Strike ability. Replace the list of units this model can be attached to: Stormboyz

PSYCHIC ABILITIES

Roar of Mork (psychic level 1)

In your Movement phase, if this unit is not battle-shocked, you can make a psychic roll for this unit by rolling one D6. If you do:

- On a 1, this unit is battle-shocked.
- Select one enemy unit (excluding MONSTER/VEHICLE units) within 12" of this unit. That enemy unit makes a battle-shock roll, with -1 from that battle-shock roll for every 10 models in this unit.

Visions of Violence (psychic level 1)

At the start of the Fight phase, if this unit is not battle-shocked, you can make a psychic roll for this unit by rolling one D6. If you do:

- On a 1, this unit is battle-shocked.
- This unit has Fights First.

Anti

This ability always takes the form **[ANTI-X Y+]**. Each time an attack is made with an **[ANTI]** weapon, if the target unit has the keyword denoted by X, an unmodified wound roll of Y+ is a critical wound.

*Example: An attack made with an **[ANTI-VEHICLE 4+]** weapon against a Vehicle unit will result in a critical wound on an unmodified wound roll of 4+, while an attack made with an **[ANTI-PSYKER 2+]** weapon against a Psyker unit will result in a critical wound on an unmodified wound roll of 2+.*

Devastating Wounds

Each time an attack made with a **[DEVASTATING WOUNDS]** weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by **[DEVASTATING WOUNDS]** weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

*Example: An attack made with a **[DEVASTATING WOUNDS]** weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.*

Extra Attacks

Each time a unit containing one or more models with an **[EXTRA ATTACKS]** weapon fights, those models will make attacks with those weapons in addition to any others. In the Select Weapons step (04.01), for each of those models, you must select:

- All of that model's **[EXTRA ATTACKS]** weapons.
- One of that model's other melee weapons, if possible.

Hazardous

Each time a unit is selected to shoot or selected to fight, after that unit has resolved all of its attacks, make a number of hazard rolls (06.03) for that unit equal to the number of **[HAZARDOUS]** weapons you selected in the Select Weapons step.

Twin-linked

Each time an attack is made with a **[TWIN-LINKED]** weapon, you can re-roll the wound roll.

FACTION RULES

Waaagh!

Friendly ORKS with this ability can:

- Re-roll advance rolls.
- Become riled up, as stated in other rules.

While a unit is riled up:

- That unit has 5+ InSv.
- That unit's ranged attacks have **[ASSAULT]**.
- When that unit is selected to make an advance move, that advance move does not prevent that unit from being eligible to declare a charge.

CORE RULES

Crucible

A Character created using Crucible rules has the Crucible ability. Your army may include up to three units with the Crucible ability and these units cannot be given Enhancements.

Deadly Demise D3

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

Example: An Impulsor with a unit of Intercessors embarked within it is destroyed by ranged attacks. First, any unresolved attacks made by the attacking unit are resolved. Then the Intercessors make an emergency disembark move. Then the roll is made for the Deadly Demise ability, and on a 6, that ability is resolved. Finally, the Impulsor is removed from the battlefield.

Deep Strike

Each time this unit makes an ingress move (20.04), if every model in this unit has this ability, it can be set up anywhere on the battlefield that is more than 8" horizontally from all enemy units, even if that is within your opponent's deployment zone.

Leader

Before the battle, in the Muster Armies step, for each leader and support unit in your army, you can select one friendly bodyguard unit that unit can lead. That unit will then lead that bodyguard unit for the battle and form an attached unit with it. Unless otherwise stated, each bodyguard unit can only have one leader unit and one support unit attached to it.
