VERTEIDIGUNG

Malefic Warding

While an INQUISITOR model is leading a unit that contains one or more DAEMONHOST models, models in this unit have a 5+ invulnerable save.

IMMER / EINMALIG

Bound Daemon

While an INQUISITOR model is leading a unit that includes one or more DAEMONHOST models, the Objective Control characteristic of DAEMONHOST models in that unit is 1.

Inquisitorial Retinue

If your Army Faction is not AGENTS OF THE IMPERIUM, then for each unique pairing of 1 INQUISITORIAL AGENTS unit and 1 DAEMONHOST unit occurring in your army, increase the maximum number of RETINUE units permitted in your army by 1. At the start of the Declare Battle Formations step, this unit can join one INQUISITORIAL AGENTS unit from your army that is being led by an INQUISITOR model (a unit cannot have more than one DAEMONHOST unit joined to it). If it does, until the end of the battle, every model in this unit counts as being part of that Bodyguard unit, and that Bodyguard unit's Starting Strength is increased accordingly.
