- Jump pack
The bearer has a Move characteristic of 10" and can move over models and terrain features as if they were not there.

Indomitor Kill Team (Transport)

WEAPON RULES

ASSAULT

Units containing one or more models with an **[ASSAULT]** weapon can shoot using **assault** shooting (10.05).

HAZARDOUS

Each time a unit is selected to shoot or selected to fight, after that unit has resolved all of its attacks, make a number of hazard rolls (06.03) for that unit equal to the number of **[HAZARDOUS]** weapons you selected in the Select Weapons step.

HEAVY

In your Shooting phase, each time an attack is made with a **[HEAVY]** weapon, add 1 to the hit roll if all of the following apply to the attacking unit:

- That unit is unengaged.
- That unit was not set up on the battlefield this turn.
- No model in that unit has moved more than 3" this turn.

IGNORES COVER

Each time an attack is made with an **[IGNORES COVER]** weapon, the target cannot have the benefit of cover against that attack (13.08), including from rules that give a model or unit the benefit of cover (e.g. Stealth).

MELTA

This ability always takes the form **[MELTA X]**. Each time a model makes an attack with a **[MELTA]** weapon, if the target unit was within half range of that weapon in the Select Targets step, until the attacking unit's attacks have been resolved, add X to that weapon's D characteristic.

*Example: A model targets a unit that is within half range of a **[MELTA 2]** weapon with a D characteristic of D6. While resolving those attacks, that weapon has a D characteristic of D6+2.*

PISTOL

[PISTOL] and **[CLOSE-QUARTERS]** are identical for all rules purposes.

Units containing one or more models with a **[CLOSE-QUARTERS]** weapon can shoot using close-quarters shooting (10.06). When using another shooting type, for each model in that unit (excluding **MONSTER/VEHICLE** models), you can only select one of the following to make attacks with:

- One or more of its **[CLOSE-QUARTERS]** weapons.
- One or more of its other ranged weapons.

SUSTAINED HITS

This ability always takes the form **[SUSTAINED HITS X]**. Each time an attack made with a **[SUSTAINED HITS]** weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

*Example: An attack made with a **[SUSTAINED HITS 2]** weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the **[SUSTAINED HITS 2]** ability).*

TORRENT

Each time an attack is made with a **[TORRENT]** weapon, that attack automatically hits the target.

TWIN-LINKED

Each time an attack is made with a [TWIN-LINKED] weapon, you can re-roll the wound roll.
