AUFSTELLUNG

1x Orion Assault Dropship (160mm)

Equipped with: 2x Arachnus heavy blaze cannon, 2x Spiculus heavy bolt launcher, 2x Twin lastrum bolt cannon, Armoured hull

ABILITIES

Assault Dropship
In your Movement phase, when a friendly Adeptus Custodes unit is selected to make a tactical disembark move from this unit, if that unit is then selected to make an advance move, that advance move does not prevent that unit from being eligible to declare a charge.

Orion Assault Dropship (Transport)
Capacity: This model has a transport capacity of 12 Adeptus Custodes Infantry models. Or 1 Dreadnought models. While transporting 1 Dreadnought unit, this unit also has a transport capacity of 6 Adeptus Custodes Infantry models.

WEAPON RULES

Blast
Each time you gather attack dice for a [BLAST] weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form [BLAST X], each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.
Example: If a [BLAST 2] weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).

Sustained Hits

This ability always takes the form [SUSTAINED HITS X]. Each time an attack made with a [SUSTAINED HITS] weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

Example: An attack made with a [SUSTAINED HITS 2] weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the [SUSTAINED HITS 2] ability).

RULES

Aegis of the Emperor

Friendly Adeptus Custodes units with this ability have Feel No Pain 5+ against mortal wounds.

Deadly Demise D6

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

Hover

Each time this unit takes to the skies (21.03), do not subtract 2" from the maximum distance.
