ABILITIES

Damaged: 1-5 Wounds Remaining

While this model has 1-5 wounds remaining, each time this model makes an attack, subtract 1 from the Hit roll.

Frozen Prey

In your Shooting phase, after this model has shot, if an enemy MONSTER or VEHICLE unit was hit by one or more of those attacks made with this model's helfrost destructor, until the end of your opponent's next turn, that enemy unit is Frozen. While a unit is Frozen, subtract 2 from that unit's Move characteristic, and subtract 2 from Advance and Charge rolls made for that unit.

Stormfang Gunship (Transport)

Capacity: This model has a transport capacity of 6 ADEPTUS ASTARTES INFANTRY models. Each JUMP PACK, WULFEN, GRAVIS or TERMINATOR model takes up the space of 2 models and each CENTURION model takes up the space of 3 models.

AUFSTELLUNG

1x Stormfang Gunship [Legends]

Equipped with: Skyhammer Missile Launcher, Twin heavy bolter, Twin lascannon, Twin multi-melta, Twin stormstrike missile launcher, ► Helfrost destructor - dispersed, ► Helfrost destructor - focused, Armoured hull

Wargear Options:

- This model can replace its Twin stormstrike missile launcher with Twin lascannon.
- This model can replace its Two skyhammer missile launchers with Two twin multi-meltas or Two twin heavy bolters.

WEAPON RULES

Anti

This ability always takes the form **[ANTI-X Y+]**. Each time an attack is made with an **[ANTI]** weapon, if the target unit has the keyword denoted by X, an unmodified wound roll of Y+ is a critical wound.

*Example: An attack made with an **[ANTI-VEHICLE 4+]** weapon against a Vehicle unit will result in a critical wound on an unmodified wound roll of 4+, while an attack made with an **[ANTI-PSYKER 2+]** weapon against a Psyker unit will result in a critical wound on an unmodified wound roll of 2+.*

Melta

This ability always takes the form **[MELTA X]**. Each time a model makes an attack with a **[MELTA]** weapon, if the target unit was within half range of that weapon in the Select Targets step, until the attacking unit's attacks have been resolved, add X to that weapon's D characteristic.

*Example: A model targets a unit that is within half range of a **[MELTA 2]** weapon with a D characteristic of D6. While resolving those attacks, that weapon has a D characteristic of D6+2.*

Sustained Hits

This ability always takes the form **[SUSTAINED HITS X]**. Each time an attack made with a **[SUSTAINED HITS]** weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

*Example: An attack made with a **[SUSTAINED HITS 2]** weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the **[SUSTAINED HITS 2]** ability).*

Torrent

Each time an attack is made with a **[TORRENT]** weapon, that attack automatically hits the target.

Twin-linked

Each time an attack is made with a **[TWIN-LINKED]** weapon, you can re-roll the wound roll.

RULES

Combat Doctrines

At the start of your Command phase, you can select one Combat Doctrine listed below. If you do, that Combat Doctrine is active for friendly ADEPTUS ASTARTES units with this ability until the start of your next Command Phase

Assault Doctrine

When this unit is selected to make an Advance move, that Advance move does not prevent this unit from being eligible to declare a charge.

Devastator Doctrine

This unit's ranged attacks have [ASSAULT]

Tactical Doctrine

When this unit is selected to make a Fall-back move, that Fall-back move does not prevent this unit from being eligible to shoot and eligible to declare a charge.

Unless otherwise stated.

- You can only select each Combat Doctrine once per battle
- Only one Combat Doctrine can be active for each unit. If a rule make a Combat Doctrine active for a unit, any Combat Doctrine previously active for that unit is no longer active for that unit.

Deadly Demise D6

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

Hover

Each time this unit takes to the skies (21.03), do not subtract 2" from the maximum distance.
