ABILITIES

Rugged Resilience
Each time an attack targets this unit, if the Strength characteristic of that attack is greater than the Toughness characteristic of this unit, subtract 1 from the Wound roll.

Storm Shield
This model has +1 W.

WEAPON RULES

DEVASTATING WOUNDS

Each time an attack made with a [**DEVASTATING WOUNDS**] weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by [**DEVASTATING WOUNDS**] weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

*Example: An attack made with a [**DEVASTATING WOUNDS**] weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.*

RAPID FIRE

This ability always takes the form [**RAPID FIRE** X]. Each time you gather attack dice for a [**RAPID FIRE**] weapon, add X additional attack dice if the target unit was within half range of that weapon in the Select Targets step.

*Example: If a [**RAPID FIRE** 1] weapon with an A characteristic of 1 targets a unit that is within half range, you would gather one additional attack dice for that weapon (for a total of two for that weapon).*

SUSTAINED HITS

This ability always takes the form [**SUSTAINED HITS** X]. Each time an attack made with a [**SUSTAINED HITS**] weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

*Example: An attack made with a [**SUSTAINED HITS** 2] weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the [**SUSTAINED HITS** 2] ability).*

TWIN-LINKED

Each time an attack is made with a [**TWIN-LINKED**] weapon, you can re-roll the wound roll.

CORE RULES

◈ Combat Doctrines

At the start of your Command phase, you can select one Combat Doctrine listed below. If you do, that Combat Doctrine is active for friendly ADEPTUS ASTARTES units with this ability until the start of your next Command Phase

Assault Doctrine

When this unit is selected to make an Advance move, that Advance move does not prevent this unit from being eligible to declare a charge.

Devastator Doctrine

This unit's ranged attacks have [ASSAULT]

Tactical Doctrine

When this unit is selected to make a Fall-back move, that Fall-back move does not prevent this unit from being eligible to shoot and eligible to declare a charge.

Unless otherwise stated.

- You can only select each Combat Doctrine once per battle

- Only one Combat Doctrine can be active for each unit. If a rule make a Combat Doctrine active for a unit, any Combat Doctrine previously active for that unit is no longer active for that unit.

◈ Deep Strike

Each time this unit makes an ingress move (20.04), if every model in this unit has this ability, it can be set up anywhere on the battlefield that is more than 8" horizontally from all enemy units, even if that is within your opponent's deployment zone.
