ABILITIES

RULES - Scouts 6", Thrill Seekers

Excessive Assault

Each time a model in this unit targets an enemy unit with a melee attack, re-roll a Wound roll of 1. If that enemy unit is within range of an objective marker, you can re-roll the Wound roll instead.

Icon of Excess

At the end of your Shooting phase or the Fight phase, if the bearer's unit destroyed one or more enemy units this phase, the bearer's unit takes a Leadership test. If that test is passed, you gain 1CP.

WEAPON RULES

Hazardous

Each time a unit is selected to shoot or selected to fight, after that unit has resolved all of its attacks, make a number of hazard rolls (06.03) for that unit equal to the number of **[HAZARDOUS]** weapons you selected in the Select Weapons step.

Pistol

[PISTOL] and **[CLOSE-QUARTERS]** are identical for all rules purposes.

Units containing one or more models with a **[CLOSE-QUARTERS]** weapon can shoot using close-quarters shooting (10.06). When using another shooting type, for each model in that unit (excluding MONSTER/VEHICLE models), you can only select one of the following to make attacks with:

- One or more of its **[CLOSE-QUARTERS]** weapons.
- One or more of its other ranged weapons.

Precision

While resolving attacks made with one or more **[PRECISION]** weapons, at the start of the Allocation Order step (05.03), if the target unit contains one or more CHARACTER models visible to one or more of the attacking models, the active player can select one allocation group that contains one of those visible CHARACTER models. If they do, until those attacks are resolved, or until that CHARACTER group is destroyed (whichever happens first), that CHARACTER group is the current allocation group.
