Attached Leader

If a Chaplain model from your army with the Leader ability can be attached to Assault Intercessors with Jump Packs or an Assault Squad with Jump Packs, it can be attached to this unit instead.

If a Character unit from your army with the Leader ability can be attached to a Death Company Marines with Jump Packs unit, it can be attached to this unit instead.

Beserk Fury

You can re-roll Charge rolls made for this unit

Black Rage

Each time a model in this unit makes an attack, you can re-roll the Hit roll. While this unit is not within 12" of one or more friendly Chaplain models, it cannot be selected to Fall Back and the Objective Control characteristic of models in this unit is 0.

WEAPON RULES

Hazardous

Each time a unit is selected to shoot or selected to fight, after that unit has resolved all of its attacks, make a number of hazard rolls (06.03) for that unit equal to the number of [HAZARDOUS] weapons you selected in the Select Weapons step.

Melta

This ability always takes the form [MELTA X]. Each time a model makes an attack with a [MELTA] weapon, if the target unit was within half range of that weapon in the Select Targets step, until the attacking unit's attacks have been resolved, add X to that weapon's D characteristic.

Example: A model targets a unit that is within half range of a [MELTA 2] weapon with a D characteristic of D6. While resolving those attacks, that weapon has a D characteristic of D6+2.

Torrent

Each time an attack is made with a [TORRENT] weapon, that attack automatically hits the target.
