ABILITIES

RULES - Combat Doctrines

Banner of Macragge

- At the end of your Movement phase, if this unit is controlling an objective, that objective is secured.
- (Once per battle, per army) When this unit is selected to fight, you can use this ability. If you do, this unit's melee attacks have +1 A and S.

Glory of Ultramar

In your opponent's Shooting phase, when an enemy unit has shot, if a model in this unit was destroyed by those attacks, this unit can make a surge move of up to D6".

Honour Guard of Macragge

Attacks that target this unit have -1 to wound rolls.

WEAPON RULES

Assault

Units containing one or more models with an **[ASSAULT]** weapon can shoot using **assault** shooting (10.05).

Precision

While resolving attacks made with one or more **[PRECISION]** weapons, at the start of the Allocation Order step (05.03), if the target unit contains one or more CHARACTER models visible to one or more of the attacking models, the active player can select one allocation group that contains one of those visible CHARACTER models. If they do, until those attacks are resolved, or until that CHARACTER group is destroyed (whichever happens first), that CHARACTER group is the current allocation group.

Rapid Fire

This ability always takes the form **[RAPID FIRE X]**. Each time you gather attack dice for a **[RAPID FIRE]** weapon, add X additional attack dice if the target unit was within half range of that weapon in the Select Targets step.

*Example: If a **[RAPID FIRE 1]** weapon with an A characteristic of 1 targets a unit that is within half range, you would gather one additional attack dice for that weapon (for a total of two for that weapon).*

Twin-linked

Each time an attack is made with a **[TWIN-LINKED]** weapon, you can re-roll the wound roll.
