ABILITIES

Damaged: 1-10 Wounds Remaining

While this model has 1-10 wounds remaining, subtract 5 from this model's Objective Control characteristic and each time this model makes an attack, subtract 1 from the Hit roll.

Invulnerable Save (5+*)

This model has a 5+ invulnerable save against ranged attacks.

Sunderer of Fortresses

Each time this model makes an attack that targets a VEHICLE, improve the Strength and Damage characteristics of that attack by 1. If that attack targets a FORTIFICATION, improve the Strength and Damage characteristics of that attack by 2 instead.

WEAPON ABILITIES

Anti

This ability always takes the form **[ANTI-X Y+]**. Each time an attack is made with an **[ANTI]** weapon, if the target unit has the keyword denoted by X, an unmodified wound roll of Y+ is a critical wound.

*Example: An attack made with an **[ANTI-VEHICLE 4+]** weapon against a Vehicle unit will result in a critical wound on an unmodified wound roll of 4+, while an attack made with an **[ANTI-PSYKER 2+]** weapon against a Psyker unit will result in a critical wound on an unmodified wound roll of 2+.*

Blast

Each time you gather attack dice for a **[BLAST]** weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form **[BLAST X]**, each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

*Example: If a **[BLAST 2]** weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).*

Devastating Wounds

Each time an attack made with a **[DEVASTATING WOUNDS]** weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by **[DEVASTATING WOUNDS]** weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

*Example: An attack made with a **[DEVASTATING WOUNDS]** weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.*

AUFSTELLUNG

1x Acastus Knight Asterius

Equipped with: Asterius volkite culverin, Karacnos mortar battery, Twin conversion beam cannon, Titanic feet

KEYWORDS: Vehicle, Walker, Titanic, Towering, Imperium, Knight
Asterius, Acastus, Frame
FACTION KEYWORDS: Imperial Knights

INVULNERABLE
SAVE

5+*

- Ignores Cover**
Each time an attack is made with an **[IGNORES COVER]** weapon, the target cannot have the benefit of cover against that attack (13.08), including from rules that give a model or unit the benefit of cover (e.g. Stealth).
- Indirect Fire**
Units containing one or more models with an **[INDIRECT FIRE]** weapon can shoot using indirect shooting (10.07).
- Sustained Hits**
This ability always takes the form **[SUSTAINED HITS X]**. Each time an attack made with a **[SUSTAINED HITS]** weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.
*Example: An attack made with a **[SUSTAINED HITS 2]** weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the **[SUSTAINED HITS 2]** ability).*
- Twin-linked**
Each time an attack is made with a **[TWIN-LINKED]** weapon, you can re-roll the wound roll.

CORE RULES

- Deadly Demise 2D6**
This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").
Example: An Impulsor with a unit of Intercessors embarked within it is destroyed by ranged attacks. First, any unresolved attacks made by the attacking unit are resolved. Then the Intercessors make an emergency disembark move. Then the roll is made for the Deadly Demise ability, and on a 6, that ability is resolved. Finally, the Impulsor is removed from the battlefield.
- Super-Heavy Walker**
Each time a unit with this ability makes a normal, advance or fall-back move:
 - Models in that unit can move through models (including MONSTER/VEHICLE models, but excluding TITANIC models) and can move horizontally through sections of terrain features that are 4" or less in height.
 - Before moving that unit, you can select for all models in that unit to have the MOBILE keyword until that move ends. If you do, when that move ends, roll one D6: on a 1, that unit is battle-shocked.*Designer's Note: Gaining the MOBILE keyword for the duration of a move will enable models in that unit to move horizontally through dense terrain features (13.06).*
