ABILITIES

Guerrilla Adept

In your Shooting phase, just after this unit is selected to shoot, this unit can use this ability. If it does, select one enemy unit (excluding Monsters and Vehicles). Until the end of the phase, attacks made by models in this unit can only attack that enemy unit (and only if it is an eligible target) and, after resolving those attacks, if one or more of those attacks hit that enemy unit, until the start of your next Shooting phase, that enemy unit is assailed (this simply labels that unit for the purposes of this ability and some Enhancements or Stratagems). If that unit is already assailed, until the start of your next Shooting phase, it is also pinned. While a unit is pinned, subtract 2" from its Move characteristic and subtract 2 from Charge rolls made for it.

Opportunistic Manoeuvre

In your Shooting phase, after this unit has shot, it can make a Normal Move of up to D6". If it does, until the end of the turn, this unit is not eligible to declare a charge.

Smoke Launcher

The bearer has the Smoke keyword.

WEAPON ABILITIES

Devastating Wounds

Each time an attack made with a [DEVASTATING WOUNDS] weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by [DEVASTATING WOUNDS] weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

Example: An attack made with a [DEVASTATING WOUNDS] weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.

Heavy

In your Shooting phase, each time an attack is made with a [HEAVY] weapon, add 1 to the hit roll if all of the following apply to the attacking unit:

- That unit is unengaged.
- That unit was not set up on the battlefield this turn.
- No model in that unit has moved more than 3" this turn.

Sustained Hits

This ability always takes the form [SUSTAINED HITS X]. Each time an attack made with a [SUSTAINED HITS] weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

Example: An attack made with a [SUSTAINED HITS 2] weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the [SUSTAINED HITS 2] ability).

Twin-linked

Each time an attack is made with a [TWIN-LINKED] weapon, you can re-roll the wound roll.

FACTION RULES

- Prioritised Efficiency**
- If your Army Faction is Leagues of Votann, Leagues of Votann units from your army have one of two abilities: Hostile Acquisition or Fortify Takeover (see below). During the battle, which ability those Leagues of Votann units have will change depending on how many Yield points (YP) you currently have:
- At the start of the battle, your units have Hostile Acquisition until the start of your next Command phase.
 - At the end of your Command phase, if you have fewer than 7YP, your units have Hostile Acquisition until the start of your next Command phase.
 - At the end of your Command phase, if you have 7YP or more, your units have Fortify Takeover until the start of your next Command phase.
- Hostile Acquisition**
- Each time a model in this unit makes an attack that targets an enemy unit within range of one or more objective markers, add 1 to the Hit roll.
 - You can re-roll Advance and Charge rolls made for this unit.
- Fortify Takeover**
- Each time a model in this unit makes an attack that targets an enemy unit, if this unit is within range of one or more objective markers you control, add 1 to the Hit roll.
 - Each time an attack targets this unit, if the Strength characteristic of that attack is greater than this unit's Toughness characteristic and this unit is not a Vehicle, subtract 1 from the Wound roll.
- Yield Points**
- At the end of each player's Command phase, you gain 1YP if you control one or more objective markers within your deployment zone, and, from the second battle round onwards, you gain 1 additional YP for each of the following conditions you satisfy:
- You control one or more objective markers not within your deployment zone.
 - You control two or more objective markers not within your deployment zone.
 - You control more objective markers than your opponent.
- In your turn, YP gained in this way are always gained before checking which ability Leagues of Votann units from your army have.
- Whenever a rule allows you to spend YP, reduce the number of YP you have by that amount (your YP cannot go below 0), otherwise you cannot use that rule.

CORE RULES

- Deadly Demise 1**
- This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").
- Example: An Impulsor with a unit of Intercessors embarked within it is destroyed by ranged attacks. First, any unresolved attacks made by the attacking unit are resolved. Then the Intercessors make an emergency disembark move. Then the roll is made for the Deadly Demise ability, and on a 6, that ability is resolved. Finally, the Impulsor is removed from the battlefield.*
- Scouts 9"**
- This ability always takes the form Scouts X". In the Resolve Pre-battle Abilities step, if every model in a unit has this ability, you can do one of the following:
- If that unit is in strategic reserves, you can set up that unit anywhere that is wholly within your deployment zone.
 - If that unit is wholly within your deployment zone, it can make a scout move.
 - If that unit is embarked within a DEDICATED TRANSPORT that is wholly within your deployment zone, and if every model embarked within that DEDICATED TRANSPORT has the Scouts ability, that DEDICATED TRANSPORT can make a scout move.
