ABILITIES

Embarking within Transports
This model can embark within friendly Adeptus Astartes Transport models that can transport Terminator models. When doing, it takes up the space of 4 Infantry models

Guile of the Wolf (Aura)
Once per turn, when your opponent targets a unit from their army within 12" of this model with a stratagem, you can use this ability. If you do increase the CP cost of that use of that stratagem by 1CP.

High King of Fenris
Once per battle round, in your Movement phase, you can select one friendly Space Wolves unit that is in Reserves. If you do, until the end of the phase, for the purposes of setting up that unit on the battlefield, treat the current battle round number as being one higher than it actually is.

Leader
This model can be attached to the following units:

- Wolf Guard Terminators

WEAPON ABILITIES

Extra Attacks
Each time a unit containing one or more models with an [EXTRA ATTACKS] weapon fights, those models will make attacks with those weapons in addition to any others. In the Select Weapons step (04.01), for each of those models, you must select:

- All of that model's [EXTRA ATTACKS] weapons.
- One of that model's other melee weapons, if possible.

CORE RULES

Deep Strike
Each time this unit makes an ingress move (20.04), if every model in this unit has this ability, it can be set up anywhere on the battlefield that is more than 8" horizontally from all enemy units, even if that is within your opponent's deployment zone.

Leader
Before the battle, in the Muster Armies step, for each leader and support unit in your army, you can select one friendly bodyguard unit that unit can lead. That unit will then lead that bodyguard unit for the battle and form an attached unit with it. Unless otherwise stated, each bodyguard unit can only have one leader unit and one support unit attached to it.
