ABILITIES

- Damaged: 1-5 wounds remaining**
While this model has 1-5 wounds remaining, each time this model makes an attack, subtract 1 from the Hit roll.
- Firebase Control (Aura)**
While a friendly Leagues of Votann Infantry unit is wholly within 6" of this Transport, ranged weapons equipped by models in that Infantry unit have the [sustained hits 1] ability.
- Guerrilla Adept**
In your Shooting phase, just after this unit is selected to shoot, this unit can use this ability. If it does, select one enemy unit (excluding Monsters and Vehicles). Until the end of the phase, attacks made by models in this unit can only attack that enemy unit (and only if it is an eligible target) and, after resolving those attacks, if one or more of those attacks hit that enemy unit, until the start of your next Shooting phase, that enemy unit is assailed (this simply labels that unit for the purposes of this ability and some Enhancements or Stratagems). If that unit is already assailed, until the start of your next Shooting phase, it is also pinned. While a unit is pinned, subtract 2" from its Move characteristic and subtract 2 from Charge rolls made for it.
- MultiCOG Targeting**
Each time this model makes a ranged attack, you can ignore any or all modifiers to the following: that attack's Ballistic Skill characteristic, the Hit roll.
- Pan spectral scanner**
Each time a model in the bearer's unit makes a ranged attack, re-roll a Hit roll of 1.

WEAPON ABILITIES

AUFSTELLUNG

1x Hekaton Land Fortress (Hull)

Equipped with: Cyclic ion cannon, Heavy magna-rail cannon, Hekaton warhead, MATR autocannon, SP heavy conversion beamer, Twin bolt cannon, Twin ion beamer, Armoured wheels

Wargear Options:

- This model can replace its Cyclic ion cannon with SP heavy conversion beamer or Heavy magna-rail cannon.
- This model must be equipped with 2 of: Twin ion beamer, Twin bolt cannon, Heavy magna-rail cannon.

HEKATON LAND FORTRESS

250 PTS

Assault

Units containing one or more models with an **[ASSAULT]** weapon can shoot using **assault** shooting (10.05).

Blast

Each time you gather attack dice for a **[BLAST]** weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form **[BLAST X]**, each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

*Example: If a **[BLAST 2]** weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).*

Devastating Wounds

Each time an attack made with a **[DEVASTATING WOUNDS]** weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by **[DEVASTATING WOUNDS]** weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

*Example: An attack made with a **[DEVASTATING WOUNDS]** weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.*

Heavy

In your Shooting phase, each time an attack is made with a **[HEAVY]** weapon, add 1 to the hit roll if all of the following apply to the attacking unit:

- That unit is unengaged.
- That unit was not set up on the battlefield this turn.
- No model in that unit has moved more than 3" this turn.

Lethal Hits

Each time an attack made with a **[LETHAL HITS]** weapon results in a critical hit, you can choose for that attack to automatically wound the target.

*Designer's Note: Choosing to automatically wound the target means that no wound roll is made for that attack. You may decide against this, as it means that attack cannot result in a critical wound and so cannot trigger other abilities such as **[DEVASTATING WOUNDS]**.*

One Shot

Each weapon with this ability can only be selected to make attacks with once per battle.

If a destroyed model is returned to a unit, all of its **[ONE SHOT]** weapons that have already been selected to make attacks with during the battle cannot be selected to make attacks with again.

If a new unit is added to an army, all **[ONE SHOT]** weapons in that unit can be selected to make attacks with once per battle.

Sustained Hits

This ability always takes the form **[SUSTAINED HITS X]**. Each time an attack made with a **[SUSTAINED HITS]** weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

*Example: An attack made with a **[SUSTAINED HITS 2]** weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the **[SUSTAINED HITS 2]** ability).*

Twin-linked

Each time an attack is made with a **[TWIN-LINKED]** weapon, you can re-roll the wound roll.

FACTION RULES

Prioritised Efficiency

If your Army Faction is Leagues of Votann, Leagues of Votann units from your army have one of two abilities: Hostile Acquisition or Fortify Takeover (see below). During the battle, which ability those Leagues of Votann units have will change depending on how many Yield points (YP) you currently have:

- At the start of the battle, your units have Hostile Acquisition until the start of your next Command phase.
- At the end of your Command phase, if you have fewer than 7YP, your units have Hostile Acquisition until the start of your next Command phase.
- At the end of your Command phase, if you have 7YP or more, your units have Fortify Takeover until the start of your next Command phase.

Hostile Acquisition

- Each time a model in this unit makes an attack that targets an enemy unit within range of one or more objective markers, add 1 to the Hit roll.
- You can re-roll Advance and Charge rolls made for this unit.

Fortify Takeover

- Each time a model in this unit makes an attack that targets an enemy unit, if this unit is within range of one or more objective markers you control, add 1 to the Hit roll.
- Each time an attack targets this unit, if the Strength characteristic of that attack is greater than this unit's Toughness characteristic and this unit is not a Vehicle, subtract 1 from the Wound roll.

Yield Points

At the end of each player's Command phase, you gain 1YP if you control one or more objective markers within your deployment zone, and, from the second battle round onwards, you gain 1 additional YP for each of the following conditions you satisfy:

- You control one or more objective markers not within your deployment zone.
- You control two or more objective markers not within your deployment zone.
- You control more objective markers than your opponent.

In your turn, YP gained in this way are always gained before checking which ability Leagues of Votann units from your army have.

Whenever a rule allows you to spend YP, reduce the number of YP you have by that amount (your YP cannot go below 0), otherwise you cannot use that rule.

CORE RULES

Deadly Demise D6

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

Example: An Impulsor with a unit of Intercessors embarked within it is destroyed by ranged attacks.

First, any unresolved attacks made by the attacking unit are resolved. Then the Intercessors make an emergency disembark move. Then the roll is made for the Deadly Demise ability, and on a 6, that ability is resolved. Finally, the Impulsor is removed from the battlefield.

TRANSPORT

Hekaton Land Fortress

This model has a transport capacity of 14 LEAGUES OF VOTANN INFANTRY models. Each EXOARMOUR, EXOFRAME or IRONKIN STEELJACKS model takes up the space of 2 models. It cannot transport ARTILLERY models.
