ABILITIES

CORE - Leader

Know-wotz
While this model is within 3" of one or more friendly ORKS VEHICLE units, this model has the Lone Operative ability.

Mekaniak
At the end of your Movement phase, you can select one friendly ORKS VEHICLE model within 3" of this model. That VEHICLE model regains up to D3 lost wounds, and, until the start of your next Movement phase, each time that VEHICLE model makes an attack, add 1 to the Hit roll. Each model can only be selected for this ability once per turn.

- Leader**
This model can be attached to the following units:
- BOYZ
 - LOOTAS
 - MEK GUNZ
 - NOBZ
 - TANKBUSTAS

WEAPON ABILITIES

Blast
Each time you gather attack dice for a [BLAST] weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form [BLAST X], each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

Example: If a [BLAST 2] weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).

Hazardous
Each time a unit is selected to shoot or selected to fight, after that unit has resolved all of its attacks, make a number of hazard rolls (06.03) for that unit equal to the number of [HAZARDOUS] weapons you selected in the Select Weapons step.

CORE RULES

Leader
Before the battle, in the Muster Armies step, for each leader and support unit in your army, you can select one friendly bodyguard unit that unit can lead. That unit will then lead that bodyguard unit for the battle and form an attached unit with it. Unless otherwise stated, each bodyguard unit can only have one leader unit and one support unit attached to it.
