ABILITIES

CORE - Leader

Gift of Poxes

Add 3" to the range of this model's Contagion Range.

Shroud of Disease

While this model is leading a unit, that unit cannot be targeted by ranged attacks unless the attacking unit is within 18".

Leader

This model can be attached to the following units:

- Plague Marines

WEAPON ABILITIES

Devastating Wounds

Each time an attack made with a **[DEVASTATING WOUNDS]** weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by **[DEVASTATING WOUNDS]** weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

*Example: An attack made with a **[DEVASTATING WOUNDS]** weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.*

Hazardous

Each time a unit is selected to shoot or selected to fight, after that unit has resolved all of its attacks, make a number of hazard rolls (06.03) for that unit equal to the number of **[HAZARDOUS]** weapons you selected in the Select Weapons step.

Lethal Hits

Each time an attack made with a **[LETHAL HITS]** weapon results in a critical hit, you can choose for that attack to automatically wound the target.

*Designer's Note: Choosing to automatically wound the target means that no wound roll is made for that attack. You may decide against this, as it means that attack cannot result in a critical wound and so cannot trigger other abilities such as **[DEVASTATING WOUNDS]**.*

Pistol

[PISTOL] and **[CLOSE-QUARTERS]** are identical for all rules purposes.

Units containing one or more models with a **[CLOSE-QUARTERS]** weapon can shoot using close-quarters shooting (10.06). When using another shooting type, for each model in that unit (excluding MONSTER/VEHICLE models), you can only select one of the following to make attacks with:

- One or more of its **[CLOSE-QUARTERS]** weapons.
- One or more of its other ranged weapons.

FACTION RULES

LORD OF POXES - CHAOS - DEATH GUARD

65 PTS

M	T	Sv	W	LD	OC

INVULNERABLE
SAVE

4+

AUFSTELLUNG
1x Lord of Poxes
Equipped with: ➤ Plasma pistol - standard, ➤ Plasma pistol - supercharge, Great plague blade

KEYWORDS: Character, Infantry, Grenades, Chaos, Nurgle, Lord of Poxes, Leader
FACTION KEYWORDS: Death Guard

Nurgle's Gift (Aura)
If your Army Faction is DEATH GUARD, while an enemy unit is within Contagion Range of one or more Death Guard units from your army, it is Afflicted.

CONTAGION RANGE
1st Battle Round: Contagion Range = 3"
2nd Battle Round: Contagion Range = 6"
3rd Battle Round Onwards: Contagion Range = 9"
Contagion Range cannot be greater than 12" after modifiers.

AFFLICTED
During the Declare Battle Formations step, select one of the Plagues below. Until the end of the battle, while an enemy unit is Afflicted, subtract 1 from the Toughness characteristic of models in that unit, and that unit has the effect of your chosen Plague.

Skullsquirm Blight
Each time a model in this unit makes a melee attack, subtract 1 from the Hit roll.

Rattlejoint Ague
Worsen the Save characteristic of models in this unit by 1.

Scabrous Soulrot
Worsen the Move, Leadership and Objective Control characteristics of models in this unit by 1 (this rule can only worsen a model's Objective Control characteristic to a minimum of 1).

CORE RULES

Leader
Before the battle, in the Muster Armies step, for each leader and support unit in your army, you can select one friendly bodyguard unit that unit can lead. That unit will then lead that bodyguard unit for the battle and form an attached unit with it. Unless otherwise stated, each bodyguard unit can only have one leader unit and one support unit attached to it.
