ABILITIES

Earthshaker Rounds In your Shooting phase, after this model has shot, if one or more of those attacks made with its earthshaker cannon scored a hit against an enemy Infantry unit, until the end of your opponent's next turn, that unit is shaken. While a unit is shaken, subtract 2" from its Move characteristic and subtract 2 from Advance and Charge rolls made for it.
Fortification While an enemy unit is only within Engagement Range of one or more Fortifications from your army: - That unit can still be selected as the target of ranged attacks, but each time such an attack is made, unless it is made with a Pistol, subtract 1 from the Hit roll. - Models in that unit do not need to take Desperate Escape tests due to Falling Back while Battle-shocked, except for those that will move over enemy models when doing so.
Reinforced Cover Each time a ranged attack is allocated to a model, if that model is not fully visible to every model in the attacking unit because of this Fortification, that model has the Benefit of Cover against that attack.

WEAPON ABILITIES

Blast Each time you gather attack dice for a [BLAST] weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form [BLAST X] , each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead. <i>Example: If a [BLAST 2] weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).</i>
Indirect Fire Units containing one or more models with an [INDIRECT FIRE] weapon can shoot using indirect shooting (10.07).

CORE RULES

Deadly Demise 1 This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6"). <i>Example: An Impulsor with a unit of Intercessors embarked within it is destroyed by ranged attacks. First, any unresolved attacks made by the attacking unit are resolved. Then the Intercessors make an emergency disembark move. Then the roll is made for the Deadly Demise ability, and on a 6, that ability is resolved. Finally, the Impulsor is removed from the battlefield.</i>
