ABILITIES

CORE - Leader

Break the Foe
Melee weapons equipped by models in this unit have the [\[Sustained Hits 1\]](#) ability.

Relentless Avalanche
You can target this model's unit with the Heroic Intervention Stratagem for OCP, and can do so even if you have already targeted a different unit with that Stratagem this phase.

Leader
This model can be attached to the following units: Cthonian Beserks

WEAPON ABILITIES

Anti
This ability always takes the form [\[ANTI-X Y+\]](#). Each time an attack is made with an [\[ANTI\]](#) weapon, if the target unit has the keyword denoted by X, an unmodified wound roll of Y+ is a critical wound.
Example: An attack made with an [\[ANTI-VEHICLE 4+\]](#) weapon against a Vehicle unit will result in a critical wound on an unmodified wound roll of 4+, while an attack made with an [\[ANTI-PSYKER 2+\]](#) weapon against a Psyker unit will result in a critical wound on an unmodified wound roll of 2+.

Extra Attacks
Each time a unit containing one or more models with an [\[EXTRA ATTACKS\]](#) weapon fights, those models will make attacks with those weapons in addition to any others. In the Select Weapons step (04.01), for each of those models, you must select:
- All of that model's [\[EXTRA ATTACKS\]](#) weapons.
- One of that model's other melee weapons, if possible.

Sustained Hits
This ability always takes the form [\[SUSTAINED HITS X\]](#). Each time an attack made with a [\[SUSTAINED HITS\]](#) weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.
Example: An attack made with a [\[SUSTAINED HITS 2\]](#) weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the [\[SUSTAINED HITS 2\]](#) ability).

Prioritised Efficiency

If your Army Faction is Leagues of Votann, Leagues of Votann units from your army have one of two abilities: Hostile Acquisition or Fortify Takeover (see below). During the battle, which ability those Leagues of Votann units have will change depending on how many Yield points (YP) you currently have:

- At the start of the battle, your units have Hostile Acquisition until the start of your next Command phase.
- At the end of your Command phase, if you have fewer than 7YP, your units have Hostile Acquisition until the start of your next Command phase.
- At the end of your Command phase, if you have 7YP or more, your units have Fortify Takeover until the start of your next Command phase.

Hostile Acquisition

- Each time a model in this unit makes an attack that targets an enemy unit within range of one or more objective markers, add 1 to the Hit roll.
- You can re-roll Advance and Charge rolls made for this unit.

Fortify Takeover

- Each time a model in this unit makes an attack that targets an enemy unit, if this unit is within range of one or more objective markers you control, add 1 to the Hit roll.
- Each time an attack targets this unit, if the Strength characteristic of that attack is greater than this unit's Toughness characteristic and this unit is not a Vehicle, subtract 1 from the Wound roll.

Yield Points

At the end of each player's Command phase, you gain 1YP if you control one or more objective markers within your deployment zone, and, from the second battle round onwards, you gain 1 additional YP for each of the following conditions you satisfy:

- You control one or more objective markers not within your deployment zone.
- You control two or more objective markers not within your deployment zone.
- You control more objective markers than your opponent.

In your turn, YP gained in this way are always gained before checking which ability Leagues of Votann units from your army have.

Whenever a rule allows you to spend YP, reduce the number of YP you have by that amount (your YP cannot go below 0), otherwise you cannot use that rule.

CORE RULES

Feel No Pain 4+

This ability always takes the form Feel No Pain X+. Each time a model with this ability would lose a wound, roll one D6: on an X+, that wound is not lost.

Leader

Before the battle, in the Muster Armies step, for each leader and support unit in your army, you can select one friendly bodyguard unit that unit can lead. That unit will then lead that bodyguard unit for the battle and form an attached unit with it. Unless otherwise stated, each bodyguard unit can only have one leader unit and one support unit attached to it.
