ABILITIES

CORE - Leader

RULES - Leader

Archon of the Poisoned Tongue (Pain)

In your Shooting phase or the Fight phase, when you select this model's unit to shoot or fight, you can spend 1 Pain token to Empower that unit. If you do, select one of the following abilities: [Sustained Hits 1]; [Lethal Hits]. Until the end of the phase, while that unit is Empowered, weapons equipped by models in that unit have that selected ability.

Mind Like a Steel Trap

Once per turn, when your opponent targets a unit from their army within 12" of this model with a stratagem, you can use this ability. If you do increase the CP cost of that use of that stratagem by 1CP.

Precognisant

If you army includes this model, after both players have deployed their armies, select up to three Drukhari units from your army and redeploy them. When doing so, you can set those units up in Strategic Reserves if you wish, regardless of how many units are already in Strategic Reserves.

Leader

This model can be attached to the following units:

- Hand of the Archon
- Incubi
- Kabalite Warriors

WEAPON RULES

Devastating Wounds

Each time an attack made with a **[DEVASTATING WOUNDS]** weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by **[DEVASTATING WOUNDS]** weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

*Example: An attack made with a **[DEVASTATING WOUNDS]** weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.*

Extra Attacks

Each time a unit containing one or more models with an **[EXTRA ATTACKS]** weapon fights, those models will make attacks with those weapons in addition to any others. In the Select Weapons step (04.01), for each of those models, you must select:

- All of that model's **[EXTRA ATTACKS]** weapons.
- One of that model's other melee weapons, if possible.

Hazardous

Each time a unit is selected to shoot or selected to fight, after that unit has resolved all of its attacks, make a number of hazard rolls (06.03) for that unit equal to the number of [HAZARDOUS] weapons you selected in the Select Weapons step.
