ABILITIES

Monofilament Snare

In your Shooting phase, after this model has shot, select one enemy unit hit by one or more of those attacks made with its Shadow Weaver. Until the start of your next turn, that enemy unit is snared. While a unit is snared, each time that unit makes a Normal, Advance or Fall Back move, roll one D6 for each model in that unit: for each 1, that unit suffers 1 mortal wound.

Support Artillery

At the start of the Declare Battle Formations step, this model can join one Guardian Defenders unit from your army (a unit cannot have more than one Support Weapon model joined to it). This model then counts as part of that Guardians unit for the rest of the battle, and that unit's Starting Strength is increased accordingly.

This model, and any unit it is joined to, cannot embark within a Transport.

Support Weapon

Each time an attack targets this model's unit, if that unit contains one or more other models, until that attack is resolved, this model has a Toughness characteristic of 3.

WEAPON RULES

Assault

Units containing one or more models with an [ASSAULT] weapon can shoot using **assault** shooting (10.05).

Blast

Each time you gather attack dice for a [BLAST] weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form [BLAST X], each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

Example: If a [BLAST 2] weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).

Indirect Fire

Units containing one or more models with an [INDIRECT FIRE] weapon can shoot using indirect shooting (10.07).
