ABILITIES

RULES - Deadly Demise D3, Nurgle's Gift (Aura)

Explosive Blight

In your Shooting phase, each time this model makes an attack that destroys an enemy unit, before removing the last model in that unit from play, roll a D6, adding 1 to the result if that unit is Afflicted; on a 5+, each enemy unit within 6" of that model is Afflicted until the start of your next turn.

WEAPON RULES

Blast

Each time you gather attack dice for a [BLAST] weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form [BLAST X], each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

Example: If a [BLAST 2] weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).

Lethal Hits

Each time an attack made with a [LETHAL HITS] weapon results in a critical hit, you can choose for that attack to automatically wound the target.

Designer's Note: Choosing to automatically wound the target means that no wound roll is made for that attack. You may decide against this, as it means that attack cannot result in a critical wound and so cannot trigger other abilities such as [DEVASTATING WOUNDS].
