ABILITIES

RULES - Close-quarters, Infiltrators, Stealth

Mark the Target

Each time this unit Remains Stationary, until the start of your next Movement phase, ranged weapons equipped by models in this unit have the [DEVASTATING WOUNDS] ability.

Reposition Under Covering Fire

In your Shooting phase, after this unit has shot, if it contains an Eliminator Sergeant equipped with an instigator bolt carbine, this unit can make a

Normal move. If it does so, until the end of the turn, this unit is not eligible to declare a charge.

WEAPON RULES

Heavy

In your Shooting phase, each time an attack is made with a [HEAVY] weapon, add 1 to the hit roll if all of the following apply to the attacking unit:

- That unit is unengaged.
- That unit was not set up on the battlefield this turn.
- No model in that unit has moved more than 3" this turn.

Precision

While resolving attacks made with one or more [PRECISION] weapons, at the start of the Allocation Order step (05.03), if the target unit contains one or more CHARACTER models visible to one or more of the attacking models, the active player can select one allocation group that contains one of those visible CHARACTER models. If they do, until those attacks are resolved, or until that CHARACTER group is destroyed (whichever happens first), that CHARACTER group is the current allocation group.
