ABILITIES

Crewed Platform

When the last Storm Guardian model in this unit is destroyed, any remaining Serpent's Scale Platform models in this unit are also destroyed.

Serpent Shield

Models in the bearer's unit have a 5+ invulnerable save.

Stormblades

At the end of your Command phase, if this unit is within range of an objective marker you control, that objective marker remains under your control until your opponent's Level of Control over that objective marker is greater than yours at the end of a phase.

WEAPON RULES

ASSAULT

Units containing one or more models with an [ASSAULT] weapon can shoot using **assault** shooting (10.05).

IGNORES COVER

Each time an attack is made with an [IGNORES COVER] weapon, the target cannot have the benefit of cover against that attack (13.08), including from rules that give a model or unit the benefit of cover (e.g. Stealth).

MELTA

This ability always takes the form [MELTA X]. Each time a model makes an attack with a [MELTA] weapon, if the target unit was within half range of that weapon in the Select Targets step, until the attacking unit's attacks have been resolved, add X to that weapon's D characteristic.

Example: A model targets a unit that is within half range of a [MELTA 2] weapon with a D characteristic of D6. While resolving those attacks, that weapon has a D characteristic of D6+2.

PISTOL

[PISTOL] and [CLOSE-QUARTERS] are identical for all rules purposes.

Units containing one or more models with a [CLOSE-QUARTERS] weapon can shoot using close-quarters shooting (10.06). When using another shooting type, for each model in that unit (excluding MONSTER/VEHICLE models), you can only select one of the following to make attacks with:

- One or more of its [CLOSE-QUARTERS] weapons.
- One or more of its other ranged weapons.

TORRENT

Each time an attack is made with a [TORRENT] weapon, that attack automatically hits the target.
