ABILITIES

Agile

Each time this model makes a Normal, Advance or Fall Back move, it can move over other models (excluding Titanic models) and terrain features that are 4" or less in height as if they were not there.

Damaged: 1-6 Wounds Remaining

While this model has 1-6 wounds remaining, subtract 5 from this model's Objective Control characteristic and each time this model makes an attack, subtract 1 from the Hit roll.

Scattershield

The bearer has a 4+ invulnerable save.

Webway Shunt Generator

Once per battle, at the end of your opponent's turn, if this model is not within Engagement Range of one or more enemy units, you can remove this model from the battlefield and place it into Strategic Reserves.

WEAPON RULES

BLAST

Each time you gather attack dice for a **[BLAST]** weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form **[BLAST X]**, each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

*Example: If a **[BLAST 2]** weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).*

DEVASTATING WOUNDS

Each time an attack made with a **[DEVASTATING WOUNDS]** weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by **[DEVASTATING WOUNDS]** weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

*Example: An attack made with a **[DEVASTATING WOUNDS]** weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.*

MELTA

This ability always takes the form **[MELTA X]**. Each time a model makes an attack with a **[MELTA]** weapon, if the target unit was within half range of that weapon in the Select Targets step, until the attacking unit's attacks have been resolved, add X to that weapon's D characteristic.

*Example: A model targets a unit that is within half range of a **[MELTA 2]** weapon with a D characteristic of D6. While resolving those attacks, that weapon has a D characteristic of D6+2.*

SUSTAINED HITS

This ability always takes the form **[SUSTAINED HITS X]**. Each time an attack made with a **[SUSTAINED HITS]** weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

*Example: An attack made with a **[SUSTAINED HITS 2]** weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the **[SUSTAINED HITS 2]** ability).*

CORE RULES

◆ Deadly Demise D6

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

◆ Deep Strike

Each time this unit makes an ingress move (20.04), if every model in this unit has this ability, it can be set up anywhere on the battlefield that is more than 8" horizontally from all enemy units, even if that is within your opponent's deployment zone.
