ABILITIES

Aethersails

While one or more Drukharri units are embarked within this model, you can re-roll Advance and Charge rolls made for this model.

Masters of the Shadowed Sky

At the end of your Command phase, if this model is within range of an objective marker you control, and if one or more Kabalite Warriors units are embarked within it, that objective marker remains under your control until your opponent's Level of Control over that objective marker is greater than yours at the end of a phase.

Speed of the Kill

Each time a Wyches unit disembarks from this model (excluding Emergency Disembarkations), models in that Wyches unit must be setup wholly within 6" of this model.

Splinter Racks (Pain)

In your Shooting phase, when you select this model to shoot, you can spend 1 Pain token to Empower this model. While Empowered, if one or more units are embarked within this model, each time this model makes an attack with a ranged weapon that has the Anti ability, you can re-roll the Hit roll.

Vanguard of the Dark City

At the start of your Command phase, select one of the abilities in the Vanguard of the Dark City section (see left) for this model. Until the start of your next Command phase, this model has that ability.

Visions of Butchery

While one or more Wracks units are embarked within this model, for each Wracks model embarked within this model, add 1 to the Attacks characteristic of this model's Bladevanes and chainsnares.

Raider (Transport)

Capacity: This model has a transport capacity of 11 Drukharri Infantry models (excluding Jump Pack models).

CORE RULES

◆ **Deadly Demise D3**

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

◆ **Deep Strike**

Each time this unit makes an ingress move (20.04), if every model in this unit has this ability, it can be set up anywhere on the battlefield that is more than 8" horizontally from all enemy units, even if that is within your opponent's deployment zone.

◆ **Firing Deck 11**

This ability always takes the form Firing Deck X. In your Shooting phase, each time this TRANSPORT is selected to shoot, if one or more units are embarked within it, resolve the following sequence:

1. Select up to X models embarked within this TRANSPORT (excluding models whose units have already been selected to shoot this phase).
2. For each selected model, select one of its ranged weapons (excluding [ONE SHOT] weapons).
3. Until this TRANSPORT has resolved all of its attacks, it has all of those selected weapons in addition to its other weapons.
4. Until the end of the turn, units embarked within this TRANSPORT are not eligible to shoot.
