AUFSTELLUNG

1x Chaos Cerastus Knight Atrapos

Equipped with: ➤ Atrapos lascutter - high intensity, ➤ Atrapos lascutter - low intensity, ➤ Graviton singularity cannon - contained, ➤ Graviton singularity cannon - singularity

ABILITIES

- Consumed with Hunger (Aura)**
While a friendly War Dog model is within 6" of this model, each time that War Dog model makes an attack that targets a Titanic or Towering unit, you can re-roll the Hit roll.
- Damaged: 1-10 wounds remaining**
While this model has 1-10 wounds remaining, subtract 5 from this model's Objective Control characteristic and each time this model makes an attack, subtract 1 from the Hit roll.
- Macro-extinction Protocols**
Each time this model makes an attack that targets a Monster or Vehicle unit, add 1 to the Hit roll. If that target is Titanic or Towering, add 1 to the Wound roll as well.

WEAPON RULES

BLAST

Each time you gather attack dice for a [BLAST] weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form [BLAST X], each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

Example: If a [BLAST 2] weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).

DEVASTATING WOUNDS

Each time an attack made with a [DEVASTATING WOUNDS] weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by [DEVASTATING WOUNDS] weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

Example: An attack made with a [DEVASTATING WOUNDS] weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.

HAZARDOUS

Each time a unit is selected to shoot or selected to fight, after that unit has resolved all of its attacks, make a number of hazard rolls (06.03) for that unit equal to the number of [HAZARDOUS] weapons you selected in the Select Weapons step.

SUSTAINED HITS

This ability always takes the form [SUSTAINED HITS X]. Each time an attack made with a [SUSTAINED HITS] weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

Example: An attack made with a [SUSTAINED HITS 2] weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the [SUSTAINED HITS 2] ability).

CORE RULES

◆ Deadly Demise D6+2

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

◆ Harbingers of Dread

If your Army Faction is Chaos Knights, each model from your army with this ability gains Dread abilities, depending which are active for your army. The Deathly Terror ability is active for your army from the start of the battle. In addition, at the start of the first, third and fifth battle rounds, you can either select one of the other Dread abilities or randomly select two Dread abilities to apply by rolling two D6 and applying the results rolled, from those numbered 1-6 below.

Any Dread abilities that have been selected are active until the end of the battle. You cannot select the same Dread ability more than once, and any duplicated Dread abilities (as a result of randomly selecting them) have no additional effect.

N/A - Deathly Terror (Aura)

While an enemy unit is within 9" of this model, worsen the Leadership characteristic of models in that unit by 1.

1 - Despair (Aura)

While an enemy unit is within 9" of this model, worsen the Leadership characteristic of models in that unit by 1. This is cumulative with the Deathly Terror ability (see above).

2 - Doom

Each time this model makes an attack, if the target is Battle-shocked, add 1 to the Wound roll.

3 - Darkness

This model has Stealth.

4 - Dismay (Aura)

In the Battle-shock step of your opponent's Command phase, for each enemy unit that is below its Starting Strength and within 9" of this model, that enemy unit must take a Battle-shock test.

5 - Delirium (Aura)

While an enemy unit that is Below Half-strength is within 9" of this model, each time that model fails a Battle-shock test, it suffers D3 mortal wounds.

6 - Dominion

Add 3" to the range of this model's Aura abilities.

◆ Super-Heavy Walker

Each time a unit with this ability makes a normal, advance or fall-back move:

- Models in that unit can move through models (including MONSTER/VEHICLE models, but excluding TITANIC models) and can move horizontally through sections of terrain features that are 4" or less in height.

- Before moving that unit, you can select for all models in that unit to have the MOBILE keyword until that move ends. If you do, when that move ends, roll one D6: on a 1, that unit is battle-shocked.

Designer's Note: Gaining the MOBILE keyword for the duration of a move will enable models in that unit to move horizontally through dense terrain features (13.06).
